Our new 2026 catalogue shall give an overview of the overall range offered by Verlag Europa-Lehrmittel, Fachbuchverlag Pfanneberg and Edition Harri Deutsch. In general our books are published in German, but we have also released some of them in English and French, for example: Metal Engineering Textbook (Fachkunde Metall), Electrical Engineering Textbook (Fachkunde Elektrotechnik), Mechanical and Metal Trades Handbook (Tabellenbuch Metall) and Modern Automotive Technology (Fachkunde Kraftfahrzeugtechnik). More English and French titles see page 95.

LICENSED EDITIONS

For years our books have been in international demand and have been translated into nearly 40 languages, e.g. Amharic, Chinese, Greek, Hebrew, Hungarian, Indonesian, Italian, Kazakh, Polish, Romanian, Russian, Thai, Turkish and Vietnamese, to name only some. Please have a look on our website: www.europa-lehrmittel.de/licensed_editions

If you are interested in translating and publishing our publications or would like to get further information regarding licensing conditions, please contact: Bärbel Flasche, rights@europa-lehrmittel.de

VERLAG EUROPA-LEHRMITTEL

The Verlag Europa-Lehrmittel publishing company was founded in 1948. Having achieved its initial success in the field of metal technology, the publisher quickly became one of the leading suppliers of teaching and learning materials in vocational training and further education in Germany.

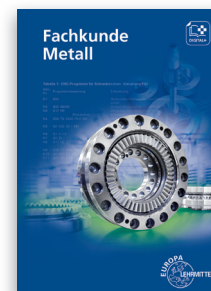

Our books and software products are an integral part of instruction in vocational and technical schools, universities, in-house training programmes, seminars and courses. Based on a reliable, student-oriented presentation, they have always adapted to – and often influenced – developments in schools. Most of our books are also available in digital form on our EUROPATHEK platform, which also offers other media packages, additional materials and e-learning content.

Our wide range includes books and software on:

- Metal Technology
- Library of Technical Knowledge/University
- Automotive Engineering | Bicycle Engineering
- Mechatronics
- Electrical Engineering | Electronics | IT
- Civil Engineering
- Wood Engineering
- Painting | Vehicle Painting
- Haulage | Logistics
- Media Technology
- Clothing | Textiles
- Health | Care | Psychology
- Hair Design
- Gardening | Floristry
- Domestic Science | Nutrition
- Economy

Fachkunde Metall

Metal Engineering Textbook

59th ed 2023, 734 pp, over 1500 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 10129 | € 47.90

- 🇩🇪 German
- 🔄 Chinese, Czech, English, Greek, Hebrew, Italian, Polish, Spanish, Thai, Vietnamese
- 🔄 Indonesian

This successful school and professional course book contains the basic principles needed for the whole field of metal technology and also more advanced knowledge in the area of industrial mechanical engineering, the mechanical engineering professions (tradesmen) and mechanical cutting. As a result "Fachkunde Metall" is ideal for use not only in vocational schools but also in technical colleges, polytechnics, technical grammar schools and schools for master craftspeople. The book is also a useful reference book for masters and other fully-qualified personnel.

Metal Engineering Textbook

1st ed 2016, 680 pp, approx. 1500 illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 12432 | € 60.90

- 🇬🇧 English
- 🔄 Romanian

First English translation of "Fachkunde Metall" (57th edition).

Techniques de la mécanique

3rd ed 2020, 704 pp, approx. 1500 illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 11664 | € 67.30

- 🇫🇷 French

L'ouvrage de référence contient quelque 1800 illustrations et tableaux, est divisé en huit chapitres et enseigne les connaissances de base ainsi que les connaissances professionnelles du domaine de la mécanique. Cette première édition est la traduction en français de l'ouvrage « Fachkunde Metall », 58e édition. L'index des termes techniques est également en anglais.

SimMetall 1.2 Simulations for Metal 1.2

Single license for one year
Europa-No. E87990V | € 11.90
 🇩🇪 German, English

This software is integrated into EUROPATHEK and runs on the following operating systems: Windows, macOS, iOS, Android and with every commonly used Browser.

This software is a collection of simulation programmes tailored to the books "Metal Engineering Textbook", "Mechanical and Metal Trades Handbook" and "Mechatronics Textbook". It contains 13 interactive simulations on metal technology and 7 simulations on electrical engineering. Simple intuitive operation allows interactive change of simulation processes.

Technisches Englisch zur Fachkunde Metall

Technical English for Metal Engineering Textbook

3rd ed 2023, 166 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 12357 | € 18.90
 🇩🇪 German
 🇻🇳 Vietnamese

This book conveys the basics of technical English in correspondence with the content of the "Metal Engineering Textbook". It is divided into study units, each referring to one technical field. Every study unit concludes with exercises. The English technical expressions are translated into German in a brief glossary in the right-hand margin. There is an English-German and German-English dictionary in the appendix.

NEW

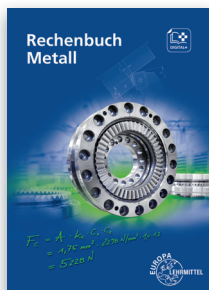

Prüfungsbuch Metall Mit Lernfeld- und Abschlussprüfungen

Examination Book Metal With Subject Areas and Final Examination

32st ed 2025, 400 and 196 pp, numerous illustrations, coloured, DIN A4, paper-bound, two volumes, with solutions
Europa-No. 10269 | € 35.70
 🇩🇪 German
 🇨🇳 Chinese
 🇻🇳 Vietnamese

Intended to supplement and support working with the "Metal Engineering Textbook", as well as for preparation for the final examinations for industrial mechanics. The main book (400 pages) contains the specialist knowledge required for the examinations in a question and answer format, with a focus on technology. In addition, it contains exercises on technical mathematics and questions and exercises on technical communication as well as economics and social studies. The additional book (196 pages) contains performance reviews for each of the 13 learning areas and also a complete final examination. These can be taken out of the book and be used as class tests or for exam preparation.

Rechenbuch Metall

Calculating Book Metal Technology

34th ed 2024, 344 pp, more than 800 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 10307 | € 32.90
 🇩🇪 German
 🇬🇷 Greek

A teaching and testing course book for vocational training and further education in the professional field of metal technology. The book, now in its 34th edition, has been revised and updated. The clearly structured material makes the basic and more advanced mathematical skills easier to retain and understand. **Solutions (Europa-No. 10501)** are available as well.

NEW

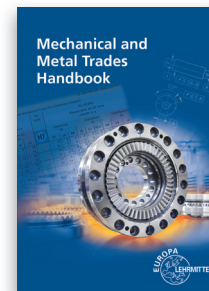

Tabellenbuch Metall

Mechanical and Metal Trades Handbook

50th ed 2025, 512 pp, with "Formulas for Metal Technology", numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 10609 | € 31.30
 🇩🇪 German
 🇨🇳 Chinese, English, Greek, Polish, Portuguese, Thai, Vietnamese

This title is an indispensable manual for trainees in metal trades. Also those studying for master or technician qualifications and university students will benefit from this reference work. The book contains tables for the following topics: Mathematical Basics, Scientific Basics, Technical Communication, Technological Aspects of Materials, Standards, Production Technology, Control and Regulation Techniques, Information Technology. It contains an index with all terms in English.

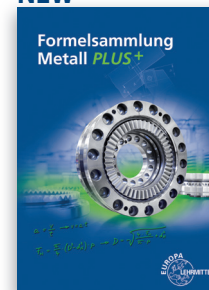

Mechanical and Metal Trades Handbook

4th ed 2018, 482 pp, numerous illustrations and charts, coloured, 15.2 x 21.5 cm, thumb index, paper-bound
Europa-No. 1910X | € 40.90
 🇩🇪 English
 🇷🇺 Estonian, Lithuanian, Romanian, Turkish

Translation of the 47th edition of the well-known "Tabellenbuch Metall". It is well-suited for shop reference, tooling, machine building, maintenance and as a general book of knowledge. It is also useful for educational purposes, especially in practical work or curricula, continuing education programmes. The contents of this book include tables and formulas in eight chapters. The tables contain the most important guidelines, designs, types, dimensions and standard values for their subject areas. Target groups: Industrial and trade mechanics, Tool & Die makers, Practitioners in trades and industry, Mechanical engineering students.

NEW

Formelsammlung Metall PLUS+

Formulas Metal Technology PLUS+ with formula conversions CNC technology, work planning, cost accounting

3rd ed 2025, 191 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, angle register
Europa-No. 11947 | € 17.90
 🇩🇪 German

Contains basic information and all standard formulas for metal technology with many important conversions and modifications. In a handy format, it is a quick reference guide for all situations, whether at the machine or the workbench, in class, during exams or while studying. Formulas for production engineering are taught based on the fundamental principles of mathematics and physics, mechanics and strength of materials, work planning with quality management and calculation.

NEW

Fachkunde Ingenieurwissenschaften und Ingenieurtechnik

Engineering and Engineering Technology Textbook

1st ed 2026, 660 pp, numerous illustrations, coloured, 19 x 26 cm, paper-bound
Europa-No. 13848 | € 49.90
 🇩🇪 German

This textbook covers the technical fields of construction engineering, mechanical engineering and electrical engineering. These three areas are linked by project tasks in the fourth main chapter of the book. Each chapter contains numerous in-depth tasks. Extensive visualisation in the form of photos and illustrations supports the explanation of the interrelationships. The book is suitable for students at vocational secondary schools with a focus on engineering, for higher vocational schools, and for students at technical colleges, universities and technical universities.

NEW

Tabellenbuch Ingenieurwissenschaften

Tables for Engineering

3rd ed 2025, 620 pp, numerous illustrations, coloured, 15,2 x 21,5 cm, paper-bound, thumb index
Europa-No. 13668 | € 37.30
 🇩🇪 German

This table book covers the technical fields of construction engineering, mechanical engineering and electrical engineering. It links these three technical fields and offers the opportunity to work on interdisciplinary tasks. This gives learners an insight into various areas of technology and enables them to recognise the connections between the individual disciplines.

Tabellenbuch Maschinenbau Hochschule

Tables for Mechanical Engineering Higher Education

1st ed 2023, 576 pp, coloured, 15,2 x 21,5 cm, paper-bound, thumb index
Europa-No. 50089 | € 38.30
 🇩🇪 German

Based on the "Mechanical and Metal Trades Handbook" (Europa-No. 10609), this restructured and redesigned book targets students at universities of applied sciences, technical universities and universities with an engineering focus.

NEW

Der Werkzeugbau

Tool Manufacture

19th ed 2025, 384 pp, approx. 800 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 10889 | € 35.70
 🇩🇪 German 🔄 Spanish
 🔄 Thai

A fundamental textbook now in its 19th edition. Specific examples illustrate a wide range of theoretical and practical skills and form ideal support materials for teaching courses in the subject. Graded revision exercises make learning easier and enable students to check their knowledge as they go along. It is designed for tool makers, tooling mechanics and process mechanics in the plastic and rubber industries.

Der Werkzeugbau Arbeitsblätter und Prüfungsvorbereitung

Tool Manufacture Worksheets and Exam Preparation

1st ed 2019, 256 pp, numerous illustrations, coloured, DIN A4, paper-bound, two volumes, with solutions
Europa-No. 14320 | € 25.90
 🇩🇪 German

This book is aimed at trainee toolmakers or precision mechanics specialising in toolmaking who are preparing for the skilled workers' examination or for a test paper. The exercises are designed as specific practical procedures. A schedule simplifies the process: Learn, Plan, Carry Out, Check and Evaluate.

Lernsituationen in der Metalltechnik – Arbeitsblätter

Learning Situations in Metal Technology – Worksheets

Each teaching area is introduced with a graphical synopsis and mind map. Several projects with a multidisciplinary (technology, mathematics, practice, work planning, presentation) structure require teamwork, work with Word, Excel and PowerPoint, use of the PDF format and access to information resources.

Solutions (Europa-No. 19509, E19606V4, 19752) are also available.

Lernfelder 1–4

Subject Areas 1–4

7th ed 2022, 76 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 19401
 € 26.30
 🇩🇪 German

Lernfelder 5–9

Subject Areas 5–9

7th ed 2020, 112 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 19606
 € 27.70
 🇩🇪 German

Lernfelder 10–15

Subject Areas 10–15

4th ed 2023, 128 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 19653
 € 27.30
 🇩🇪 German

Grundlagen Metalltechnik in Lernfeldern

Metal Technology in Subject Areas

1st ed 2022, 384 pp, numerous illustrations, coloured, 19.5 x 26 cm, paper-bound, digital supplements
Europa-No. 15860 | € 27.30
 🇩🇪 German

Fundamental manual for trainees in the metal industry and metal trade with extensive visualisation of the technological learning situations.

The topics are supplemented by tasks and short information modules and animations. Contents across learning fields: materials engineering, technical communication, presentation and mathematical-physical basics.

Fachwissen Metalltechnik – in Lernfeldern

Specialist Knowledge Metal Technology – Subject Areas

Industriemechanik Industrial Mechanics

1st ed 2024, 771 pp, coloured, 19.5 x 26 cm, paper-bound, digital supplements
Europa-No. 15897 | € 34.90
 🇩🇪 German

The book is aimed at 2nd to 4th year industrial mechanics trainees and it is also suitable for further education and training in the metal industry. It contains technological, technical computing and drawing information that will enable future skilled workers to make decisions.
Solutions (Europa-No. 15903) are available as well.

NEW

Zerspanungsmechanik Machining Mechanics

1st ed 2025, approx. 600 pp, numerous illustrations, coloured, 19.5 x 26 cm, paper-bound, digital supplements
Europa-No. 14210 | € 39.90
 🇩🇪 German

The book is aimed at 2nd to 4th year machining mechanics trainees and it is also suitable for further education and training in the metal industry.

Metalltechnik Grundbildung

Basic Knowledge Metal Technology

8th ed 2018, 360 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 11117 | € 32.30
 🇩🇪 German
 🇨🇪 Czech, Greek

The basic volume contains the fundamental knowledge for industrial and craft vocations in the field of metal technology. It provides a foundation for later specialist training.

The book can be used at vocational college and during practical training. Contents: length measurement technology, manufacturing technology, materials technology, machine and appliance technology, process control technology, information technology, electrical engineering.

Metalltechnik – Metal Technology

These two worksheets cover the subjects of the elementary and higher levels for the occupations industrial mechanic, mechanical engineer, toolmaker etc.
Solutions (Europa-No. 17417, 17816) are available as well.

Grundstufe Arbeitsblätter

Basic Level Worksheets

8th ed 2023, 73 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 17115 | € 16.70
 🇩🇪 German
 🇻🇳 Vietnamese

Fachstufe Arbeitsblätter

Advanced Level Worksheets

5th ed 2020, 112 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 17719 | € 21.30
 🇩🇪 German

Fachwissen Technische Produktdesigner

Specialist Knowledge Technical Product Designers

Textbooks for the 1st, 2nd, 3rd and 4th year of training on the main areas of machine manufacturing and product design – also suitable for masters, technicians and students.
Solutions (Europa-No. 15174 and 15181) are available as well.

Specialist Knowledge Technical Product Designers 1

2nd ed 2022, 495 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 14641 | € 51.70
 🇩🇪 German

Specialist Knowledge Technical Product Designers 2

1st ed 2021, 398 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 15167 | € 43.90
 🇩🇪 German

Werkstofftechnik Aufgabensammlung

Materials Engineering Collection of Exercises

1st ed 2022, 72 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 50065 | € 11.90
 🇩🇪 German

Collection of exercises for teaching materials engineering in technical colleges, vocational grammar schools, master craftsmen's courses and technical colleges.
Solutions (Europa-No. 50072) are available as well.

Kraft- und Arbeitsmaschinen

Power and Work Machines

17th ed 2022, 351 pp, numerous illustrations, 17 x 24 cm, paper-bound
Europa-No. 10412 | € 34.30
 🇩🇪 German

Machines and systems are presented in detail and their respective operating modes are explained. Each chapter includes revision and more in-depth exercises. The answers at the back of the book allow you to check your own results.

Tabellenbuch für Metallbautechnik

Tables for Metal Construction Technology

11th ed 2022, 508 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 16011 | € 34.90
 🇩🇪 German 🔄 Vietnamese 🔄 Italian

An indispensable reference work for metal constructors, design engineers, structural engineers and draughtsmen. Among the contents: technical communication, mathematical/scientific fundamentals, materials, connections and fastenings, structural elements. Each page's topic is concluded with tables, formulas and pictures. Revised edition with an additional index with technical terms in English.

NEW

Formeln Metallbau, Konstruktionsmechanik PLUS+

Formulas Metal Construction, Construction Mechanics

1st ed 2025, 160 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, angle register
Europa-No. 13824 | € 14.90

A compilation of the most important formulas and mathematical relationships for metal construction and construction mechanics. All formulas are consistently rearranged according to all variables. The handy format and uniform layout increase readability and facilitate orientation.

🇩🇪 German

Metallbau- und Fertigungstechnik Grundbildung

Metal Construction and Production Technology

12th ed 2023, 334 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 10013 | € 31.70
 🇩🇪 German 🔄 Vietnamese

This textbook is an elementary introduction to metal working technology, intended for elementary training as metal worker in the metal working crafts and the industrial metal trades as well as for students. Among the contents: introduction to production technology, testing technology, materials technology, cutting, primary shaping, transforming, jointing, electrical engineering, control technology, fundamentals of information technology. **Solutions (Europa-No. 10957L, 10957V)** are available.

Metallbautechnik Fachbildung nach Lernfeldern

Metal Construction Advanced Knowledge

11th ed 2023, 560 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 11311 | € 45.70
 🇩🇪 German
 🔄 Chinese, Vietnamese 🔄 Italian

The focus of this text book for vocational training is steel and metal construction. It covers all essential teaching objectives for construction designers and metal engineers. This book is also suitable for plant engineers. **Solutions (Europa-No. 11978L, 11978V)** are available as well.

NEW

Technique de la construction métallique

1st ed 2024, 544 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 12180 | € 45.00
 🇫🇷 French

Ce manuel de formation professionnelle (la traduction de « Metallbautechnik Fachbildung nach Lernfeldern », 8ème édition), est principalement axé sur la construction métallique et l'acier. Il couvre tous les points essentiels du contenu du cours pour les concepteurs et les métallurgistes et convient également aux ingénieurs d'usine.

Metallbautechnik Arbeitsbuch – Metal Construction Workbook

Grundstufe

Basic Level

1st ed 2019, 176 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 17390 | € 17.90
 🇩🇪 German

This learning field-oriented workbook for metalworkers and structural engineers conveys practical learning content for trainees of manufacturing and metalworking professions: manufacturing of construction elements with hand-operated tools, manufacturing of construction elements with machines, maintenance of technical systems. **Solutions (Europa-No. 17406)** are available as well.

Fachstufe 1

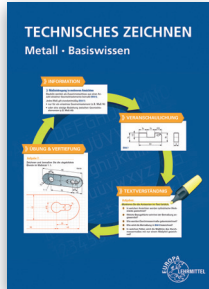

Advanced Level 1

2nd ed 2018, 204 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 11909 | € 31.30
 🇩🇪 German 🔄 Vietnamese

Fachstufen 2 und 3

Advanced Levels 2 and 3

1st ed 2021, 288 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 12272 | € 34.30
 🇩🇪 German

Technisches Zeichnen Metall Basiswissen

Technical Drawing Metal Basic Knowledge

1st ed 2024, 44 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 14340 | € 12.90
 🇩🇪 German

This workbook is ideal for learners at the beginning of a metalworking apprenticeship or in vocational preparation schools. It provides the basics of technical drawing step by step, from standardised creation to interpretation for the manufacture of components. Systematically structured exercises on text comprehension, drawing and dimensioning are practised using simple components. **Solutions (Europa-No. 14388)** are available as well.

Technisches Zeichnen – Technische Kommunikation

Technical Drawing – Technical Communication

Grund- und Fachbildung Metall – Informationsband

Basic and Technical Education Metal – Information volume

11th ed 2023, 223 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 12814 | € 35.70
 🇩🇪 German

This information volume is a reference book for lessons, homework and self-study.

Arbeitsblätter Technische Kommunikation Metall

Technical Communication Metal Worksheets

This series of courses is based on the tried and tested separation between information and exercise. The information volumes are an education medium in the instruction and serve as a reference work for homework and self-study. In addition to elementary drawing exercises and the production of individual parts drawings, the worksheets offer a large number of technical drawing and work planning exercises. **Solutions (Europa-No. 13128, 13713)** are available as well.

NEW

Grundbildung

Basic Knowledge Worksheets

14th ed 2024, 96 pp, numerous illustrations, DIN A4, paper-bound, perforated and punched
Europa-No. 12911 | € 11.90
 🇩🇪 German
 🔄 Hebrew

Fachbildung

Advanced Knowledge Worksheets

12th ed 2025, 144 pp, numerous illustrations, DIN A4, paper-bound, perforated and punched
Europa-No. 13519 | € 24.30
 🇩🇪 German
 🔄 Hebrew

Fachkunde Zerspantechnik

Machining Technique Textbook

2nd ed 2024, 607 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 15655 | € 53.90
 🇩🇪 German

This book portrays all the learning content of machining techniques at basic and specialist levels: safety at work and environmental protection, principles, materials and manufacturing technology, industrial engineering, production planning and quality management, and control and regulation technology. Each chapter corresponds to the respective topic in "Tables for Machining Technique".

Tabellenbuch Zerspantechnik

Tables for Machining Technique

6th ed 2024, 488 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 14733 | € 36.90
 🇩🇪 German 🔄 Vietnamese

This book is for all who produce work pieces from metal materials using machining production processes. Users will find quantity equations, formulas, diagrams, tabular values and information on the processing technologies required when applying technical principles and implementing metal cutting production processes. Content: Physics, mathematics, materials engineering, electro-technology, mechanics, machine technology, CNC technology.

Zerspantechnik Fachbildung

Machining Technique Advanced Knowledge

7th ed 2019, 528 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, with CD
Europa-No. 14914 | € 49.70
 🇩🇪 German
 🔄 Chinese, Vietnamese

This book contains the subject matter of the 2nd, 3rd and 4th year of vocational training of machining mechanics and lathe operators. It provides knowledge about turning, milling and grinding as well as other machining processes. In addition, the book includes chapters dedicated to machine tools, testing technology, quality management and automatic control, flexible manufacturing, and learning units in English. **Solutions (Europa-No. 14986)** are available as well.

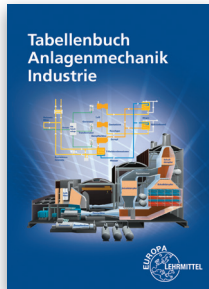

Arbeitsbuch Zerspantechnik Lernfelder 5 bis 13

Workbook Subject Areas 5–13

2nd ed 2012, 152 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 14832 | € 25.30
 🇩🇪 German 🔄 Vietnamese

This book allows a trainee to verify and consolidate the knowledge he/she has acquired in the training lessons. In addition to this, the trainee's ability to analyse advanced problems and find a solution on his/her own shall be further strengthened. In addition to the workbook for pupils, a **solution guide (Europa-No. 14849V, 14849L)** is available for teachers to facilitate the preparation of lessons and exercises.

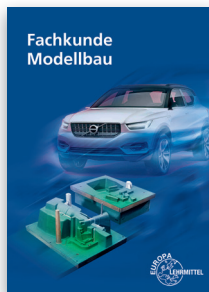

Tabellenbuch Anlagenmechanik Industrie

Tables for Industrial Plant Technology

2nd ed 2021, 544 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 14450 | € 41.70
 🇩🇪 German 🔄 Vietnamese

An indispensable reference work for industrial plant technicians.

It is also suitable for all who work in industrial plant construction, pipework, container and apparatus construction or for local utility providers, or those who are aiming for further training. Includes a comprehensive list of technical words and standards.

Fachkunde Modellbau

Model Construction Textbook

7th ed 2017, 480 pp, numerous illustrations, coloured, 17 x 24 cm, hardcover, with CD
Europa-No. 1244X | € 70.70
 🇩🇪 German

“Fachkunde Modellbau” is a completely revised standard work for the training of model makers and model construction engineers. This book on the technology and practice of model and mould making contains the required basic and advanced knowledge.

Contents include: manufacture of models, computer aided techniques, rapid prototyping, vehicle bodywork modelling, mould construction, foundry pattern construction, materials science.

Fachkunde Gießereitechnik

Foundry Technology Textbook

9th ed 2021, 464 pp, numerous illustrations, coloured, 17 x 24 cm, hardcover, digital supplements
Europa-No. 1793X | € 71.30
 🇩🇪 German 🔄 Kazakh, Russian

Containing all required basics, job-specific technical communication and advanced technology, this standard work is not only a course book for apprentices, but also a reference book for masters and technicians. A completely revised edition with all new standards, modern layout, coloured illustrations. **Formulas (Europa-No. 10489)** are available as well.

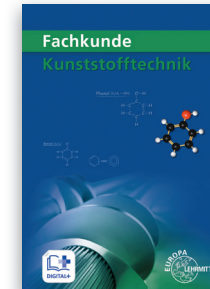

Grundwissen Bahn

Basic Knowledge Railways

12th ed 2025, 586 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 74011 | € 53.70
 🇩🇪 German 🔄 Greek

This textbook contains all the knowledge required for the profession of railway worker, including the specialist areas railway worker in traffic management and railway worker in operational service: engine driver and transportation.

It is suitable for use in vocational colleges and for on-the-job education and training. This book provides the interested layman with valuable insights into railway operations.

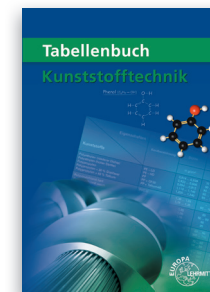

Fachkunde Kunststofftechnik

Plastics Engineering Textbook

7th ed 2024, 704 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 13802 | € 56.70
 🇩🇪 German 🔄 Chinese, Vietnamese

The book was devised for theoretical vocational training of apprentices as well as for training on-the-job of master craftsmen and technicians. The textbook summarizes all basic and special knowledge in plastics engineering. Based on general technical fundamentals, the technologies of plastic processing are presented via the description of methods and procedures applied in practice.

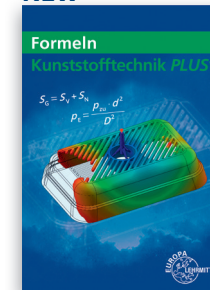

Tabellenbuch Kunststofftechnik

Tables for Plastics Engineering

3rd ed 2023, 496 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound
Europa-No. 15020 | € 41.90
 🇩🇪 German

This book of tables for plastics engineering complements the technical textbook. The tables book's content is suitable for both master and technician training courses and can accompany degree courses on plastics engineering.

NEW

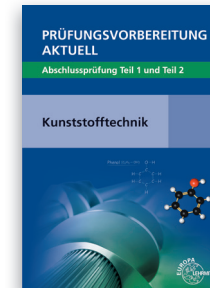

Formeln Kunststofftechnik PLUS+

Formulas Plastics Engineering PLUS+

1st ed 2025, 96 pp., coloured, 17 x 24 cm, paper-bound, thumb index
Europa-No. 13770 | € 14.90
 🇩🇪 German

This collection of formulas provides basic information and all standard formulas for plastics engineering, including many important transformations and modifications. With its handy format, the book is a quick aid in all situations, whether at the machine or the workbench, in class, during examinations or when studying.

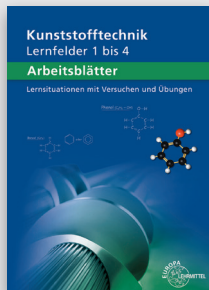

Prüfungsvorbereitung aktuell Kunststofftechnik

Exam Preparation – Plastics Engineering

2nd ed 2020, 224 pp, numerous illustrations, coloured, DIN A4, paper-bound, with solutions (116 pp)
Europa-No. 15051 | € 31.30
 🇩🇪 German

A comprehensive textbook for preparation for the written examination in the vocational training as a process technician in plastics and rubber technology.

The textbook contains the subjects of final examinations part 1 (fields of study 1 to 6) and part 2 (fields of study 7 to 14) on the specialist areas of moulded parts and semi-finished goods. The enclosed solutions book provides comprehensive sample answers for self-checking purposes.

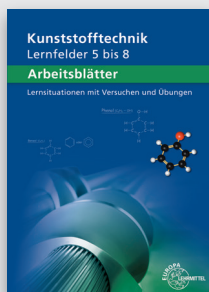

Arbeitsblätter Kunststofftechnik

Plastics Engineering Worksheets

The worksheets are devised for the theoretical vocational training of apprentices in plastics engineering. Content and structure of the worksheets are aligned to the obligatory syllabus for the apprenticeship of process mechanics in plastics and rubber engineering. This book addresses process technicians for plastic and rubber.

Solutions (Europa-No. 14146, 13965) are available as well.

Lernfelder 1–4

Subject Areas 1–4

4th ed 2018, 136 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 13842 | € 28.30

🇩🇪 German

Lernfelder 5–8

Subject Areas 5–8

3rd ed 2020, 136 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 13873 | € 28.30

🇩🇪 German

Fachkunde Klempner/-in, Spengler/-in, Dach- und Fassadengestalter/-in

Plumbing, Tinsmithing, Roof and Facade Design

4th ed 2023, 336 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 14429 | € 38.30

🇩🇪 German

This technical guidebook is aimed at trainees in the apprenticeship professions plumber, pipefitter and metalworker. In addition to the traditional tasks of a plumber, it pays particular attention to new development in this field. It deals with new work areas in facade construction and metal design in particular, as well as traditional tasks as roof drainage, liquid storage/channelling and metal roofing.

Fenster-, Türen- und Fassadentechnik

Window, Door and Facade Technology

7th ed 2024, 284 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 18316 | € 40.90

🇩🇪 German

This book provides specialist knowledge of windows, doors, facades and glass building extensions in far greater depth than the contents of normal technology books. The material is explained simply, so that students and those from other professions can also profit from it.

NEW

Fachkunde Sanitär-, Heizungs- und Klimatechnik

Sanitary, Heating, Ventilation and Air Conditioning Textbook

8th ed 2025, 900 pp, numerous illustrations, coloured, 19.5 x 26 cm, paper-bound, digital supplements

Europa-No. 1521X | € 43.90

🇩🇪 German

🇮🇹 Italian, 🇰🇿 Kazakh, 🇷🇺 Russian, 🇻🇳 Vietnamese

In addition to the classic tasks of plumbing, this textbook also takes the latest developments in this field into account. The professional focuses of the book are: basics of roof drainage, storage technology, dormer and chimney cladding, the modern production of a metal roof, special types of covering, lightning and snow protection on the roof, facade construction and metal design, accident prevention, scaffolding, building physics and an ergonomically favourable workshop equipment.

Sanitär-, Heizungs- und Klimatechnik – Arbeitsbücher

Sanitary, Heating, Ventilation and Air Conditioning –Workbooks

Volumes 1 (Subject Areas 1–4) and 2 (Subject Areas 5–8) contain a diverse pool of tasks and take into account the current framework curriculum. They are coordinated with “Fachkunde Sanitär-, Heizungs- und Klimatechnik” (Europa-No. 1521X), but can also be used independently.

Lernfelder 1–4

Subject Areas 1–4

Tabellenbuch Sanitär-, Heizungs- und Klimatechnik

Tables for Sanitary, Heating, Ventilation and Air Conditioning

5th ed 2025, 551 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, thumb index, paper-bound
Europa-No. 16638 | € 33.30
 🇩🇪 German

Compact textbook of sanitary, heating, ventilation and air conditioning for the vocational training of apprentices and craftsmen. Current state of standards. The figures, data and facts are presented in formulas, tables and charts and constitute a solid basis for exercise, homework and the preparation of examinations. They also provide professionals with important advice concerning construction elements and work processes. Professions: Sanitary and HVAC plant mechanics.

NEW

Formeln Sanitär-, Heizungs- und Klimatechnik PLUS+

Formulas Sanitary, Heating, Ventilation and Air Conditioning Technology PLUS+

5th ed 2025, 84 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, angle register
Europa-No. 18014 | € 15.70

Reference work for solving problems as well as technical mathematics. Each formula is accompanied by informative images, explanations of the symbols used, all formula conversions and the corresponding units.

🇩🇪 German

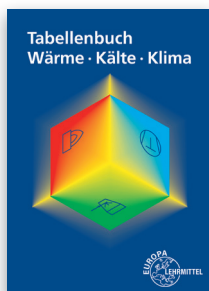

Prüfungsvorbereitung aktuell Anlagenmechaniker/-in

Exam Preparation – Plant Mechanic for Sanitary, Heating and Air-Conditioning Technology

5th ed 2023, 359 pp, numerous illustrations, coloured, DIN A4
Europa-No. 18755 | € 27.30

Adapted to the current training regulations. The examination book covers learning fields 1 to 15 and contains detachable solution suggestions at the end of the book for self-monitoring.

🇩🇪 German

Tabellenbuch Wärme – Kälte – Klima

Tables for Heat, Refrigeration, Air Conditioning

11th ed 2024, 576 pp, more than 1200 illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 1731X | € 42.70
 🇩🇪 German
 🇫🇷 French 🇻🇳 Vietnamese

An important reference work for the vocational training of cooling plant constructors, gas and water installation engineers, central heating and ventilation constructors, also suitable for foreman and technician training. It is divided into eight main sections: fundamentals, mathematics, applied physics, applied mechanics, technical communication, material science, production technology, plant technology. The glossary contains over 2200 keywords with further cross-references.

NEW

Fachkunde Mechatronik Mechatronics Textbook

8th ed 2025, 680 pp, approx. 2000 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 45119 | € 51.30
 🇩🇪 German
 🇰🇿 Kazakh, Russian, Slovenian, Thai, Vietnamese 🇨🇳 Chinese, Indonesian

This textbook conveys the basic and technical knowledge needed to pursue a career in mechatronics. The key areas are fundamentals and manufacture of mechanical systems, fundamentals of electrical engineering, electronics and information processing, control technology, mechatronic systems, installation, maintenance and servicing of mechatronic systems.

Tabellenbuch Mechatronik Tables for Mechatronics

13th ed 2024, 632 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 45011 | € 38.30
 🇩🇪 German
 🇨🇳 Chinese, Polish, Vietnamese 🇪🇸 Spanish

A compendium and reference work for the fields of electrical engineering and metal technology for vocational college training and in professional practice. For further information: The title "Formulas for mechatronics engineers" (Europa-No. 45515) contains all important formulas of electrical engineering, metal and information technology.

Rechnen und Projektieren Mechatronik Calculating and Project Planning Mechatronics

5th ed 2020, 368 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 18618 | € 32.70
 🇩🇪 German 🇨🇳 Chinese

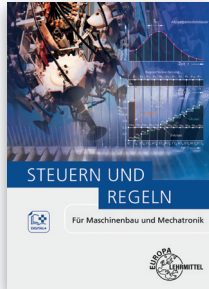

Textbook and exercise book for conveying basic and specialist knowledge. The main focus is on problems in automation technology. The field of programmable logic controllers is separated into small control units and modular systems. The chapter on control technology includes tasks and exercises about routing and continuous and discontinuous controllers. **Solutions (Europa-No. 18820)** are available as well.

Prüfungsvorbereitung aktuell – Mechatronik Exam Preparation – Mechatronics

4th ed 2019, 332 pp, numerous illustrations, coloured, DIN A4, paper-bound, two volumes, with solutions (166 pp)
Europa-No. 11268 | € 34.30
 🇩🇪 German
 🇨🇳 Chinese 🇹🇭 Thai, Vietnamese

The examination book for the final examination parts 1 and 2 covers all learning fields of the professional training course to become a mechatronics engineer and contains exam exercises for the final examination as well as final examination papers. Further, it can be used to prepare for class and course tests. The extensive solutions to the exercises and examination are provided in a separate booklet.

Steuern und Regeln

Open- and Closed-Loop Control

17th ed 2023, 480 pp, more than 1000 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 10021 | € 40.30

- 🇩🇪 German
- 🇨🇪 Czech, Greek, Polish, Russian
- 🇨🇳 Chinese

A basic textbook on control and regulation of machines and plants with digital supplements, mechanical, electrical, pneumatic and hydraulic control and drive elements, NC machines and robots, sensor technology and business processes in production.

Industrielle Fertigung

Fertigungsverfahren, Mess- und Prüftechnik

Industrial Production

Manufacturing Processes

9th ed 2021, 894 pp, approx. 2000 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 53510 | € 64.90

- 🇩🇪 German

The text book is divided into two parts. The first part deals with modern industrial production, with processes for the manufacture of metallic work pieces from plastics, ceramic and glass. It describes the techniques of surface modification and joining, the new generative manufacturing processes and applications of laser technology. The second part deals with the processes of production metrology, materials testing, component testing and the qualification of production facilities.

Werkzeugmaschinen

Machine Tools

1st ed 2017, 508 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 50175 | € 49.70

- 🇩🇪 German
- 🇰🇿 Kazakh, Russian

The book describes assembly, construction and system behaviour of machine tools, with their associated components and power units. It addresses the following topics: cutting, milling, reshaping and splitting machine tools, die-casting machines and injection moulding machines, coordinate measurement machines, 3D printers and industrial robots, as well as mechanical, electrical, hydraulic and pneumatic machine components.

Our virtual media shelf **EUROPATHEK** offers digital books (available as an annual or 4-year licence) with features such as highlighting, bookmarking, notes, search and much more, as well as multimedia supplements.

- In addition, you will also find simulations and e-learnings. www.europathek.de
- Further information: info.europathek.de

Industrielle Montage

Industrial Assembly

1st ed 2018, 247 pp, approx. 500 illustrations, coloured, 17 x 24 cm, paper-bound

Europa No. 50861 | € 31.30

- 🇩🇪 German

The specialist book for trainees and students provides the basic knowledge of assembly technology regarding serial assembly, the associated joining processes, material flow technology and work-system design. In addition, concrete assembly projects from the fields of mechanical engineering, the automotive industry, the electronics industry and the textile branch are presented as examples and in depth.

Wärmebehandlung des Stahls

Grundlagen, Verfahren und Werkstoffe

Heat Treatment of Steel

Principles, Processes and Materials

14th ed 2025, 328 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 13039 | € 35.70

- 🇩🇪 German
- 🇰🇿 Kazakh, Russian, Turkish

This book offers a comprehensive overview of the complex and multi-layered field of knowledge of heat treatment of steels and may be used as a basic work both in instruction and in self-study.

3D-Druck – Additive Fertigungsverfahren

3D Printing – Additive Manufacturing

4th ed 2023, 224 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 50335 | € 29.30

- 🇩🇪 German

This book covers the following technologies: stereolithography, 3D printing technology, selective laser sintering, selective mask sintering, selective laser melting, fused layer modeling and layer laminated manufacturing as well as information on 3D data flow, including 3D CAD data generation, 3D scanning and 3D presentation technology.

Qualitätsmanagement

Quality Management

8th ed 2019, 352 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, with CD

Europa-No. 53812 | € 33.90

- 🇩🇪 German
- 🇵🇹 Portuguese

Practice-oriented course book on quality management according to DIN EN ISO 9000:2015 ff.

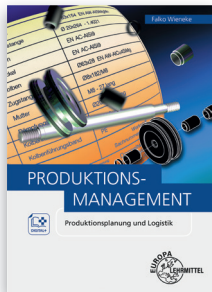

Management methods and tasks for quality, occupational safety and health protection, environmental protection and for IT security with lots of examples. The enclosed CD contains a revision book and current legal texts as well as all images.

Produktionsorganisation Production Organisation

12th ed 2022, 584 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 52417 | € 47.90
German

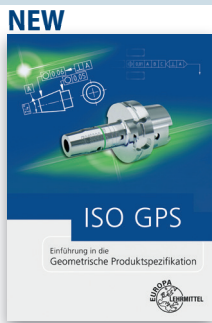

Course book on the organisation and management of production, quality management, work-system design and product policy with the topics business organisation, planning methods, work-system design, cost calculation, PPS and project management.

Produktionsmanagement Production Management Production Planning and Logistics

5th ed 2024, 266 pp, numerous illustrations, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 53111 | € 33.90
German

Using the example of a virtual company in the mechanical engineering sector, this book describes the planning and order processing of the production of two typical products, starting with the market analysis through to the delivery of the products: Analysis, project planning and optimisation of information and material flows, as well as the optimal processing of customer orders.

ISO GPS Einführung in die geometrische Produktspezifikation ISO GPS Introduction to Geometrical Product Specification

4th ed 2025, 184 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 10212 | € 21.90
German

Since 2011, ISO GPS has been the most important standardisation system for technical communication and covers all standards that relate to the requirements of the geometry of workpieces. This book provides a summary of the ISO GPS standards system and its main principles. This book demonstrates by means of examples how geometrical elements and components can be measured in accordance with ISO GPS standards and what impact this has on measurement techniques and quality assurance.

Werkstofftechnik Maschinenbau Materials in Machine Constructions

7th ed 2023, 664 pp, numerous illustrations, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 52611 | € 46.30
German

A textbook on the most important metal and non-metal materials: steels and cast iron materials, non-ferrous metals and their alloys, plastics and ceramic materials. The composition and properties of materials are described, the interactions between material properties and production processes, as well as material testing.

Konstruktionslehre Maschinenbau Mechanical Engineering-Design

7th ed 2021, 576 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 14009 | € 46.90
German

This book introduces readers and trainees to the methodical and systematic design. Each step is illustrated with a variety of examples and exercises. The reader finds a thorough description of all typical machine elements and is familiarized with using the computer to solve design tasks. The book addresses technicians and students in the disciplines of mechanical engineering, production technology and mechatronics.

Technische Mechanik Technical Mechanics

The contents follow the curriculum of the technical colleges with focus on mechanical engineering. The course book provides important basic knowledge necessary to understand the main fields of mechanical engineering. The calculation bases can be retrieved swiftly since the collection of formulas and tables is coordinated with the course and exercise book "Technical Mechanics". We recommend the parallel use of both books.

Lehr- und Aufgabenbuch Course and Exercise Book

12th ed 2020, 536 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 5021X | € 46.90
German
Chinese

Formel- und Tabellensammlung Collection of Formulas and Tables

7th ed 2019, 72 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, stapled paper-bound
Europa-No. 52212 | € 16.70
German

Fachwissen Betriebs- und Antriebstechnik Specialist Knowledge Industrial Engineering and Drive Technology

9th ed 2023, 520 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 50015 | € 43.90
German

This textbook including energy and machine technology aims at conveying basic and specialised knowledge for all those who deal with the learning fields of electronics technicians from the specialisations of industrial engineering to machine and drive technology.

Elektrische Maschinen

Electrical Machinery

High-Performance Electronics – Electric Drives

7th ed 2021, 480 pp, numerous illustrations, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 46444 | € 46.90
 🇩🇪 German

In-depth practical reference book with practical applications for students who want to understand and work with electrical machinery and drive technology including high-performance electronics. With new content such as energy efficiency and effectiveness, 4.0 drives, energy-saving engines, wind farms and much more.

Werkstofftechnik für Elektroberufe

Materials Technology for Electrical Professions

5th ed 2024, 295 pp, approx. 700 illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 51917 | € 31.30
 🇩🇪 German

Textbook for vocational training and further education in various educational institutions. Also suitable for self-study. Natural science basics, construction materials and auxiliary materials, materials of electrical engineering/electronics and their application. High-tech materials, environmental protection and occupational safety.

NEW

Automatisierungstechnik

Automation Technology

15th ed 2025, 576 pp, approx. 1350 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 51518 | € 51.90
 🇩🇪 German
 🇨🇳 Chinese

Updated textbook, exercises and compendium with the fundamentals and components of automation technology: electrical, pneumatic, hydraulic, electronic, in analogue and digital technology. Comprehensive description of CNC technology, rapid prototyping, robotics and image processing. There is an intensive introduction to the procedures of Quality Management and PPS systems.

Tabellenbuch Automatisierungstechnik

Tables for Automation Engineering Reference

2nd ed 2022, 520 pp, numerous illustrations, coloured, thumb index, 15.2 x 21.5 cm, paper-bound
Europa-No. 50823 | € 34.90
 🇩🇪 German

This compact reference book contains information on electrical engineering, industrial engineering, electronics and information technology for electrical engineers and is intended for any occupation that requires formal automation and mechatronics training. Professions: Electrical engineers involved in automation, industrial and production engineering.

Praktische Netzwerkanalyse

Practical Network Analysis

Analysing Computer Networks with Wireshark

1st ed 2024, 230 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 53039 | € 29.90
 🇩🇪 German

This book introduces the basics of network analysis and uses examples to explain how to use Wireshark and how the most important network protocols work together. Suitable for all learners and for everyday use.

Fachwissen Netzwerktechnik

Technical Textbook Network Technology

4th ed 2022, 288 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 54012 | € 34.70
 🇩🇪 German
 🇰🇿 Kazakh, Russian

This professional textbook covers the basics of network and communication technology and provides the basis for a deeper dive into these topics. It is suitable for apprentices of the IT professions such as IT specialists, computer scientists, electronics technicians, electric and data technology technicians as well as for students of technical studies, for whom understanding the principles of networks has become indispensable.

Fachwissen Netzwerktechnik

Aufgabenheft

Network Technology Workbook

1st ed 2022, 76 pp, coloured, DIN A4, paper-bound
Europa-No. 54111 | € 13.30
 🇩🇪 German

The workbook is closely linked to the title "Technical Textbook Network Technology" (Europa-No. 54012) and offers further tasks and exercises.

Our virtual media shelf **EUROPATHEK** offers digital books (available as an annual or 4-year licence) with features such as highlighting, bookmarking, notes, search and much more, as well as multimedia supplements.

Fachkunde Kraftfahrzeugtechnik

Modern Automotive Technology

31st ed 2019, 848 pp, approx. 2000 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 20108 | € 49.90

📖 German

🔄 Arabic, Chinese, Croatian, Czech, English, French, Greek, Hungarian, Italian, Kazakh, Norwegian, Polish, Russian, Slovenian, Vietnamese

🔄 Hebrew, Latvian

The 31st edition of "Fachkunde Kraftfahrzeugtechnik" was updated to the latest technological standards and expanded with new automotive technology content. Among the contents: testing technology, production technology, materials technology, machine and appliance technology, control technology, fundamentals of information technology, electrical engineering, motors, power transmission, suspension, two-wheeler technology, utility vehicle engineering, electrical plant. The volume is admirably suited for automobile engineering apprentices, but is also useful as a reference work for fitters, master craftsmen and technicians. The book was written by a team of pedagogically experienced technical college lecturers and engineers, in close collaboration with craft and industry.

Modern Automotive Technology

2nd ed 2014, 782 pp, approx. 2000 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

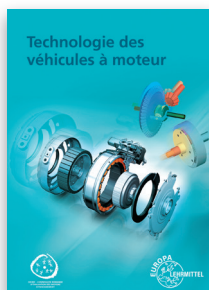

Europa-No. 23018 | € 58.30

📖 English

🔄 Romanian

🔄 Indonesian

English translation of the wellknown "Fachkunde Kraftfahrzeugtechnik" (30th edition).

Technologie des véhicules à moteur

🔄 Romanian

The ideal go-to book for solving the problems and tasks involved in work planning, technology in practice and in the technology laboratory. The book is divided into six major sections: mathematics, basic principles, more specialized aspects of motor car mechanics, materials science, drawing and standards. The six sections can easily be opened by thumb index. At the end of the book, there is a very comprehensive index so that you can easily find the reference item you are looking for.

NEW

Praxisorientiertes Rechnen Kraftfahrzeugtechnik

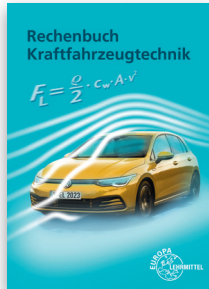

Practice-Orientated Computing Automotive Engineering

1st ed 2025, 168 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 22307 | € 24.30

🇩🇪 German

The new book provides sound mathematical knowledge for modern automotive training and illustrates its practical application. It thus lays the foundation for many areas of automotive engineering, including the calculation of engine parameters, drivetrain, chassis, electrical engineering with calculations for high-voltage technology and for body and production engineering calculations and repair cost calculations.

Rechenbuch Kraftfahrzeugtechnik

Calculating Book Automotive Technology

10th ed 2023, 272 pp, more than 360 illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 20329 | € 26.90

🇩🇪 German 🇮🇹 Italian 🇬🇷 Greek

A comprehensive text and exercise book with basic mathematical exercises followed by a more advanced stage containing technical, vehicle related cost calculations as well as project-orientated exercises.

More than 1200 exercises enable the student to practise on realistic examples.

Solutions (Europa-No. 20426) are available as well.

Prüfungstrainer Kraftfahrzeugtechnik

Fachwissen

Examination Trainer Automotive Technology Specialist Knowledge

1st ed 2023, 535 pp, numerous illustrations, coloured, DIN A4, paper-bound, with solutions (267 pp)
Europa-No. 22833 | € 40.90

🇩🇪 German

Standard work for the preparation of final examinations, technician examinations and master craftsman examinations. Over 1300 different questions – with solution booklet.

Fachkunde Nutzfahrzeugtechnik

Commercial Vehicle Technology Textbook

1st ed 2015, 352 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 23711 | € 36.30

🇩🇪 German

This specialist textbook is aimed at apprentices of the automotive sector specialising in commercial vehicle technology, and at professional driver apprentices and trainees. It will help them to understand technical processes and system environments. It is useful as a reference book, a source of information and also to expand any existing professional knowledge for journeymen, masters and technicians of the automotive technology trade, and professional drivers.

Technologie des véhicules utilitaires

1st ed 2020, 352 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 23780 | € 47.90

🇫🇷 French

« Technologie des véhicules utilitaires », la traduction du livre « Fachkunde Nutzfahrzeugtechnik », 1ère éd., s'adresse à tous les niveaux de formation des techniciens du secteur automobile, aux conducteurs professionnels et aux étudiants en technique automobile comme ouvrage de référence et pour compléter leurs connaissances spécialisées.

Lernsituationen Berufskraftfahrer – Learning Situations Professional Drivers

The subject areas from day-to-day vocational training as a professional driver in the first year of training serve to provide targeted preparation for the interim and final examinations. Based on specific case studies, technical and commercial issues and how to handle customers are dealt with. Multiple choice tasks for recap and advanced exercises supplement the learning situations and complete each of them.

Solutions (Europa-No. 20433, 21348, 22437) are available as well.

Lernfelder 1–4

Subject Areas 1–4

2nd ed 2024, 312 pp, illustrations, coloured, DIN A4, paper-bound
Europa-No. 21922 | € 29.90

🇩🇪 German

Lernfelder 5–8

Subject Areas 5–8

1st ed 2022, 304 pp, illustrations, coloured, DIN A4, paper-bound
Europa-No. 21331 | € 31.70

🇩🇪 German

Lernfelder 9–12

Subject Areas 9–12

1st ed 2024, 232 pp, illustrations, coloured, DIN A4, paper-bound
Europa-No. 22420 | € 29.90

🇩🇪 German

NEW

Fachkunde Land- und Baumaschinentechnik

Agricultural and Construction Machinery Technology Textbook

3rd ed 2025, 864 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 20079 | € 71.90

🇩🇪 German 🇮🇹 Italian 🇷🇺 Russian 🇻🇳 Vietnamese 🇮🇰 Mongolian

This specialist textbook is intended to help the apprentice of Agricultural and Construction Machinery Technology to understand the technical processes and system environments. With this book, the required theoretical knowledge for the practical manual skills can be acquired. This work is intended as a reference book for journeymen, masters and technicians as well as for students of Agricultural and Construction Machinery Technology.

Technologie des machines agricoles et de chantier

1st ed 2019, 830 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 23797 | € 83.70

🇫🇷 French

Ce livre sur la base de la première édition allemande du titre « Fachkunde Land- und Baumaschinentechnik » est destiné à aider les apprentis du secteur des machines agricoles et de chantier à comprendre les processus techniques et les interactions entre les différents systèmes. Avec ce livre vous pourrez acquérir les connaissances théoriques nécessaires.

Tabellenbuch Land- und Baumaschinentechnik

Tables for Agricultural and Construction Machinery Technology

1st ed 2020, 616 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound
Europa-No. 20789 | € 39.90
 🇩🇪 German

Reference work for solving technical problems in agricultural, construction, municipal and forestry machinery technology. It covers the areas of functional analyses, work planning, service, repair, diagnosis as well as conversion and retrofitting.

Livre de tabelles pour machines agricoles et chantier

1st ed 2024, 608 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound
Europa-No. 23601 | € 49.30
 🇫🇷 French

Ouvrage de référence pour la résolution de problèmes techniques dans le domaine des machines agricoles, de construction, communales et forestières. Il comprend les domaines suivants : analyses fonctionnelles, planification du travail, service, réparation, diagnostic, ainsi que transformation et mise à niveau.

NEW

Arbeitsblätter Land- und Baumaschinentechnik

Agricultural and Construction Machinery Worksheets

2nd ed 2025, 224 pp, coloured, DIN A4, paper-bound, perforated
Europa-No. 20143 | € 33.30
 🇩🇪 German

The worksheets based on commercial activity situations, each with a specific problem situation from the sectors of agricultural, construction, urban and forestry technology, form an integrated unit with technical experience and the data manual. A tabular summary shows the options for the classification of work situations with possible areas of study.

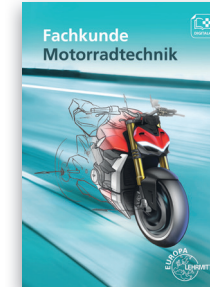

Formeln Land- und Baumaschinentechnik

Formulas for Agricultural and Construction Machinery Technology

1st ed 2020, 64 pp, coloured, 13.5 x 20.7 cm, stapled
Europa-No. 20006 | € 15.70
 🇩🇪 German

This collection of formulas contains all the important and required formulas for calculations relating to training as an agricultural and construction machinery mechatronics engineer (without sample exercises). It is therefore suitable as an aid in examinations for journeymen's, masters' and technicians' examinations.

NEW

Fachkunde Motorradtechnik

Motorbike Mechanics

5th ed 2025, 423 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 22313 | € 58.90
 🇩🇪 German

"Motorbike Mechanics" teaches the knowledge that a trainee on a motorbike mechanics course requires. It sheds light on the complex relations between motorbike technology and the movements of man and machine. Target groups: motorbike mechanics, motorbike drivers, service technicians and master students. It provides information to students of vehicle technology and specialists in craft enterprises, expanding their specialist knowledge.

Fachwissen E-Bike

Expertise E-Bike

5th ed 2023, 224 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 24015 | € 34.30
 🇩🇪 German
 🇷🇺 Dutch

The book deals with the structure, mode of operation and operating behaviour of electric bicycles. Subjects and scope have been selected and determined to provide apprentices with the required practical and theoretical specialist knowledge.

Fachkunde Fahrradtechnik

Bicycle Technology Textbook

8th ed 2023, 596 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 22917 | € 54.90
 🇩🇪 German
 🇵🇱 Polish 🇷🇴 Romanian

This standard work of general bicycle engineering contains all information on bikes with a large number of relevant tables and should be at hand in every bike trade as a primary reference work for apprentices as well as for masters. All components of a bicycle are described extensively and in an up-to-date manner. Furthermore, mathematical-technical knowledge is transferred, as well as ergonomics or the adaptation between human and machine.

NEW

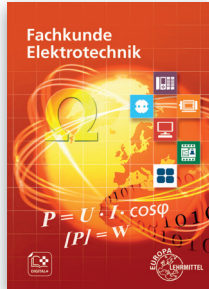

Tabellenbuch Fahrradtechnik

Tables for Bicycle Technology

8th ed 2025, 464 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, thumb index, paper-bound
Europa-No. 23315 | € 39.90
 🇩🇪 German

Contains all important formulas concerning bicycles, tables of all bicycles parts and components, notes on measuring and ergonomics, technical terminology that must be known by apprentices in their final examination and by master tradesmen in the workshop. Comprehensive collection of standards, regulations and laws relating to all aspects of the bicycle.

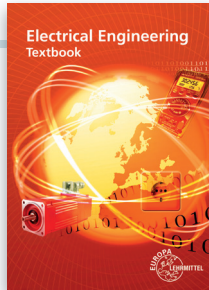

Fachkunde Elektrotechnik

Electrical Engineering Textbook

34th ed 2024, 712 pp, numerous illustrations, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 30138 | € 45.90

📖 German
 🔄 Chinese, Czech, English, Greek, Hungarian, Slovenian, Spanish, Vietnamese

This volume covers vocational and advanced training and education in the field of Electrical Engineering and Electronics. It provides basic knowledge of the entire field and expert know-how in such vocations as electrician, power electronics specialist for industrial systems, general electrician and technician for electromechanical equipment. The book is ideally suited for vocational schools and company training centers.

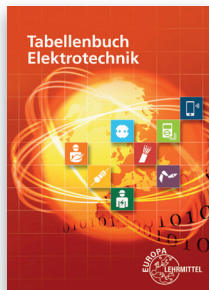

Electrical Engineering Textbook

1st ed 2016, 663 pp, numerous illustrations, 17 x 24 cm, paper-bound
Europa-No. 32409 | € 60.90

📖 English
 🔄 Romanian, 🔄 Turkish

First English translation of our wellknown "Fachkunde Elektrotechnik" (29th edition).

Tabellenbuch Elektrotechnik

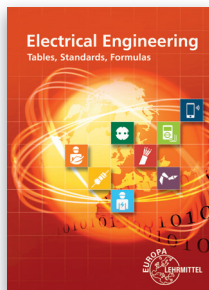

Electrical Engineering Tables, Standards, Formulas

31st ed 2024, 640 pp, more than 3000 illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index

Europa-No. 30103 | € 33.90

📖 German
 🔄 Czech, English, French, Greek, Polish, Thai, Vietnamese

"Tabellenbuch Elektrotechnik" is an indispensable reference book for teaching and for professional practice. In spite of its wealth of material, this book is characterised by its clear and understandable presentation. Among the contents: materials, connecting technology, environmental technology, technical communication, electrical systems, electric motors, mathematics, circuit theory, costs and glossary.

Electrical Engineering Tables, Standards, Formulas

3rd ed 2024, 592 pp, more than 3000 illustrations, coloured, 15.2 x 21.5 cm, thumb index, paper-bound

Europa-No. 30337 | € 41.30

📖 English
 🔄 Romanian

English translation of the 29th German edition of "Tabellenbuch Elektrotechnik".

Electrotechnique pour professionnels

1st ed 2023, 688 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 38586 | € 52.70

📖 French

Ce livre spécialisé, la traduction de la 31ème édition allemande « Fachkunde Elektrotechnik », est un ouvrage standard des connaissances de base et spécialisées de tous les champs d'apprentissage pour l'ensemble du champ professionnel de l'électrotechnique.

Electrotechnique pour professionnels Exercices et solutions

1st ed 2024, 64 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 38579 | € 16.90

📖 French

Exercices et solutions du titre « Electrotechnique pour professionnels ».

Arbeitsbuch Elektrotechnik

Workbook for Electrical Engineering

Compact workbooks for strengthening technical expertise: analysis of electrotechnical systems and functional testing, planning and execution of electric installations, analysis and adjustment of controls, preparation of IT systems. Suitable for all apprentices learning an electrical profession in industry and tradesman's businesses. The learning situations are orientated around professional practice and each one ends with a repetition page "Test your technical skills".

Solutions (Europa-No. 37515, 37572) are available as well.

Lernfelder 1–4

📖 German

SimElektro – Simulations for Electrical Engineering

Basic Level 1.2

Single license for one year
Europa-No. E86990V | € 11.90
 German, English

Specialist Level 2.0

Single license for one year
Europa-No. E86992V | € 15.70
 German

This software is integrated into EUROPATHEK and runs on the following operating systems: Windows, macOS, iOS, Android and with every commonly used Browser.

SimElektro Basic Level 1.2 is a collection of simulation programmes for electrical engineering adapted to the books "Electrical Engineering", "Workbook for Electrical Engineering, Subject Areas 1–4" and "Worksheets Electrical Engineering"; with 21 interactive simulations and a total of over 80 functions that can be switched on, e.g. animations, diagrams, formulas and calculations.

SimElektro Specialist Level 2.0 is a collection of 25 simulations (13 new simulations and 12 simulations from "SimElektro – Specialist Level 2.0 – Protective Measures", Europa-No. E86991V).

Praxis Elektrotechnik

Practical Electrical Engineering

16th ed 2022, 368 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 30812 | € 34.70
 German
 Czech, Greek, Polish
 Vietnamese

This well proven textbook teaches the required basic and advanced knowledge for the power related electrical professions in craft and industry. All chapters have been revised and adapted to current standards. The book is divided into manageable learning sections and supports practical, action oriented instruction. Important contents of the learning sections are summarised as an aid to memory. Revision questions help to consolidate and check the knowledge gained.

Prüfungsfragen Praxis Elektrotechnik

Examination Questions Electrical Engineering Practice

13th ed 2023, 336 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 3091X | € 22.90
 German
 Greek, Kazakh, Russian
 Vietnamese

Exercise book for preparation for intermediate, final and proficiency examinations in electrical professions. Over 2500 conventional questions and about 320 programmed questions for self-checking at the end of the section with separate answers.

Prüfungsbuch Elektrotechnik

Examination Book Electrical Engineering

21st ed 2024, 468 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 30650 | € 26.30
 German
 Greek, Kazakh, Russian

The tried and tested question and answer technique has been retained for preparation for examinations in skilled professions of electricians in industrial engineering, automation technology, infrastructure systems and the specialist subject of energy and building technology. Also for preparation for test papers and for the master's certificate examination.

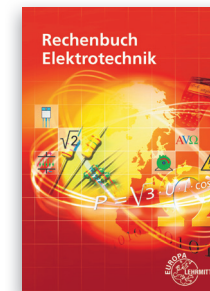

Elektrotechnik Grundbildung

Electrical Engineering Basic Knowledge

13th ed 2024, 312 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 3141X | € 31.30
 German
 Greek

This elementary level textbook covers the syllabi for all electrical vocations, both in the field of power engineering, such as electrical installation engineers, electric motor constructors, electrical fitters, energy electronics engineers, electro-mechanical engineers and industrial electronics engineers, and also for vocations in communications technology. It is a clearly laid-out and readerfriendly book with examples, exercises, theorems to memorise and numerous illustrations.

Rechenbuch Elektrotechnik

Calculating Book Electrical Engineering

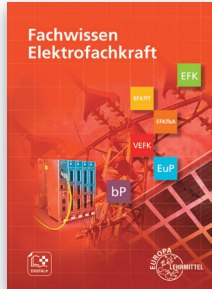

22nd ed 2020, 288 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 30766 | € 29.90
 German
 Greek

This textbook and exercise book is intended to complement the titles "Fachkunde Elektrotechnik" and "Tabellenbuch Elektrotechnik" of the Europa-Lehrmittel series as it represents the mathematical part and the calculations needed in this field. In its conception and difficulty level the book is mainly intended for the energy engineering side of electrical engineering. **Solutions (Europa-No. 30960)** are available as well.

Our virtual media shelf **EUROPATHEK** offers digital books (available as an annual or 4-year licence) with features such as highlighting, bookmarking, notes, search and much more, as well as multimedia supplements.

- In addition, you will also find simulations and e-learnings.
www.europathek.de
- Further information: info.europathek.de

Fachwissen Elektrofachkraft

Specialist Knowledge for Qualified Electricians

1st ed 2024, 304 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 32719 | € 24.90
 🇩🇪 German

New textbook and workbook on the topics of "Planning and installing electrical systems", "Designing and ensuring the electrical power supply and safety of technical building systems, installations and devices" and "Installing, commissioning and maintaining energy systems".
 The book also provides information on standards, rules, provisions and regulations, e.g. accident prevention regulations.

Elektro- und Sicherheitstechnik für Meister, Techniker und Ingenieure

Electrical and Safety Engineering for Masters, Technicians and Engineers

1st ed 2024, 288 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 32375 | € 24.90
 🇩🇪 German

Basic knowledge of electrical and safety engineering for prospective **master craftsmen and technicians in the electrical trade**. Also suitable for **engineers** and those wishing to obtain the "Certificate of Expertise for the Connection of Electrical Systems to the Low-Voltage Network" (TREI certificate).

NEW

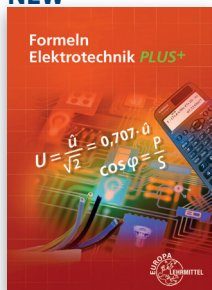

Frequenzumrichter für Praktiker

Frequency Converters for Practitioners **PLUS**

1st ed 2025, 420 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 51271 | in prep.
 🇩🇪 German

Aimed at electronics engineers who want to learn from scratch how frequency converters are used in practice. After a comprehensive introduction to the theoretical basics, the book explains how frequency converters are controlled using programmable logic controllers (PLCs). Also includes numerous exercises with solutions.

NEW

Formeln Elektrotechnik **PLUS+**

Formulas Electrical Engineering **PLUS+**

3rd 2025, 132 pp, coloured, 17 x 24 cm, paper-bound, 16-fold angle register
Europa-No. 30289 | € 18.30
 🇩🇪 German 🇪🇪 Estonian

The formulary contains all important and necessary formulas for electrical power engineering, mathematics and physics. All formulas are meaningfully rearranged according to other quantities. Suitable for exams and class tests.

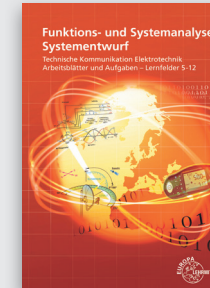

Funktions- und Systemanalyse Systementwurf

Function and System Analysis System Design

Technical Communication Electrical Engineering

The contents of this series cover the topics of function and system analysis as well as system design, which are relevant for examinations in most electrical engineering and mechatronics professions. Learners will thus be able to prepare, evaluate and functionally analyse circuit diagrams and documentation in a professional manner.
Solutions (Europa-No. 35814, 36012) are available as well.

NEW

Lernfelder 1–4

Informationstechnik**
**Industrial Electronics and
Information Technology
Textbook**

14th ed 2024, 736 pp, more than 1700 coloured illustrations and tables, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 32319 | € 47.70

🇩🇪 German 🇨🇪 Czech 🇮🇩 Indonesian

“Fachkunde Industrieelektronik und Informationstechnik” is a textbook for basic and advanced levels in industrial electronics and information technology. It is ideally suited for vocational training, for learners at high schools, technically-oriented schools and company training centers. As a fundamental introduction to the entire field, it is also beneficial for learners at higher-level vocational schools, students at technical colleges and vocational academics, poly-techs and universities specializing in engineering.

**Elektrotechnik Elektronik
Grundwissen**
Basics Electronics

18th ed 2023, 384 pp, more than 500 illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 31789 | € 33.30

🇩🇪 German 🇵🇱 Polish

The book is compiled systematically by subject in order to facilitate referencing, revision and in-depth study. It contains explanations and illustrations of the formulas and laws of fundamental electrics and basic knowledge of electronics. The 18th edition has been revised to reflect technical developments, as well as altered standards and regulations.

**Fachkunde Informations-
elektroniker/-in**
**Information Electronics
Technician Textbook**

10th ed 2023, 704 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 32513 | € 53.30

🇩🇪 German

It is a basic textbook for elementary and higher training in the vocational areas of information electronics, communications electronics, office systems electronics, media design and IT. This thoroughly revised and updated textbook is characterised by its understandable presentation with many pictures, examples and questions.

**Informationstechnik,
Kommunikation, Neue Netze**
**Information Technology
and Telecommunications
Technology**

9th ed 2021, 305 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 36217 | € 42.90

🇩🇪 German 🇨🇪 Czech, Kazakh, Russian

A practice-orientated textbook suitable for all technical information and telecommunications professions, in particular in IT. This technical manual is suitable for teaching IT professions at vocational schools, technical schools and universities.

NEW

**Grund- und Fachstufe
für technische IT-Berufe**
**Basic and Advanced
Knowledge
for Technical IT Professions**

8th ed 2025, 692 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 36519 | € 54.30

🇩🇪 German

A compact textbook containing all the knowledge required for a first course in the special subjects of information technology and commercial computer science. Commercial contents, simple computer systems, computer English, development and preparation of application systems, computer networks, market research, public networks and service, administration of computer systems, accounting and controlling.

Arbeitsheft für IT-Berufe
**Workbook for
IT Professions**

1st ed 2020, 88 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 30234 | € 13.90

🇩🇪 German

This workbook may serve for one thing as a supplement and advanced level of instruction and for another as targeted preparation for the written Chamber of Commerce final examination (part B of the examination) for IT specialists. Thanks to the use of levels of difficulty, the exercises (which should be tackled without aids) may be selected in a more targeted fashion for the various IT professions or training courses.

NEW

IT Tabellenbuch
IT Tables

6th ed 2025, 520 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index

Europa-No. 37019 | € 34.30

🇩🇪 German

Valuable to trainees, students, IT experts, computer system engineers, electronics experts (information and telecommunication engineers). The book offers in-depth technical content, e.g. protection of hardware and networks (LAN and WLAN) and their infrastructure, encryption, permissions and requirements for IT security, virtualization, cloud computing and mobile computing.

NEW

**Tabellenbuch
Informations-, Geräte-, System-
und Automatisierungstechnik**

**Tables for Information
Technology**

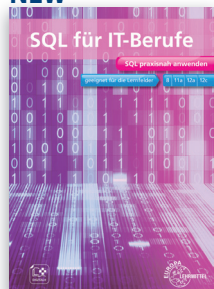

14th ed 2025, 544 pp, 1600 illustrations, coloured, 15.2 x 21.5 cm, thumb index, paper-bound, with 68 pp formulas

Europa-No. 33722 | € 42.30

🇩🇪 German

It is a valuable help as a compendium and reference book for the vocational training and a reliable mentor in practice. This easy-to-manage book of tables is designed for communications electricians in the areas of information technology, radio technology and telecommunications technology, for industrial electricians, for radio and TV technicians, electro-mechanics, office information electricians and for all professional fields within information technology.

NEW

SQL für IT-Berufe

SQL for IT Professions

1st ed 2025, 133 pp, numerous illustrations, coloured, DIN A4, paper-bound

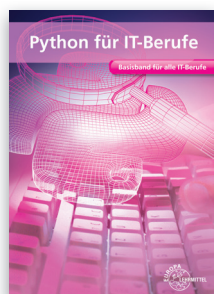

Europa-No. 33457 | € 21.90

🇩🇪 German

This book is designed as a basic textbook for all vocational training courses in the IT sector.

Thanks to its varied tasks, it can be used in all IT professions, but also by IT assistants.

The software package XAMPP is used as a development tool in this book. This package is available as a free download. In addition to a list of SQL keywords, the appendix of the book also contains information on the use of various database management systems.

Python für IT-Berufe

Basisband für alle IT-Berufe

Python for IT Professions

Basic Volume for all IT Professions

1st ed 2022, 192 pp, coloured, DIN A4, paper-bound

Europa-No. 31781 | € 22.90

🇩🇪 German

Basic book for all professional training courses in the IT sector with a systematic introduction to structured and object-orientated programming – with a collection of exercises and learning situations.

C++ für IT-Berufe

C++ for IT Professions

4th ed 2022, 277 pp, coloured numerous illustrations, DIN A4, paper-bound

Europa-No. 85498 | € 24.30

🇩🇪 German

🇰🇿 Kazakh, Russian

“C++ for IT professionals” is an excellent basis for school training, in which access to the complex topics of programming must be prepared with greater clarity and practical implementation. The development tool used in this book is Visual Studio 2017 community edition from Microsoft. This development environment is available as a free download on the internet.

Java für IT-Berufe

Mit JavaFX

Java for IT Professions

With JavaFX

3rd ed 2019, 291 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 85535 | € 25.30

🇩🇪 German

🇰🇿 Kazakh, Russian

This book conveys the Java language graphically and in a practical and informative manner. A systematic introduction to this programming language and the principles of Java technology, GUI programming, the linking of databases and the development of JavaFX applications are followed by exercises and lastly learning situations based on the learning field “Development and provision of application systems”.

C# für IT-Berufe

Mit .NET MAUI-App Entwicklung

C# for IT Professions

With .NET MAUI App Development

5th ed 2024, 356 pp, coloured, DIN A4, paper-bound

Europa-No. 85542 | € 26.70

🇩🇪 German

This book conveys the C# language and the principles of NET graphically and in a practical and informative manner – with exercises and learning situations.

Datenbanken

Databases

5th ed 2022, 214 pp, coloured numerous illustrations, DIN A4, paper-bound, digital supplements

Europa-No. 36087 | € 22.90

🇩🇪 German

🇰🇿 Kazakh, Russian

The book conveys the theoretical and practical basics for planning, realisation and programming of databases with modern software systems. Great importance is attached to clarifying the interrelationships. As a basic introduction to the entire field of database technology, this book is suitable for pupils and students, e.g. at vocational schools, vocational colleges and universities.

Prüfungsvorbereitung aktuell – Exam preparation

These books serve as preparation for the final examination for the qualification of IT Specialist in Systems Integration and IT Specialist in Application Development and all other IT professions – with comprehensive tasks for the specialist and core qualification and for Economics and Sociology. **Solutions are included.**

NEW

NEW

Teil 2 Fachinformatiker Systemintegration

Part 2 IT-Specialist in Systems Integration

3rd ed 2025, 378 pp, coloured, DIN A4, paper-bound Europa-No. 31699 | € 24.30

Teil 2 Fachinformatiker Anwendungsentwicklung

Part 2 IT Specialist in Applications Development

2nd ed 2024, 390 pp, coloured, DIN A4, paper-bound Europa-No. 31682 | € 24.30

🇩🇪 German

Fachkunde Bau

Civil Engineering Textbook

18th ed 2020, 668 pp, approx. 1400 illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 40222 | € 43.90

📖 German

🔄 Greek, Italian, Kazakh, Mongolian, Polish, Russian, Vietnamese 🔄 Indonesian

A textbook for training in the vocational field of construction works: for builders of concrete and reinforced concrete buildings, bricklayers, roofing specialists, carpenters, technical drawers, building construction and civil engineering. This volume is particularly well-suited for instruction in vocational schools and company training centers.

Bautechnik nach Lernfeldern Gesamtband

Construction Technology by Subject Areas Comprehensive Volume

5th ed 2017, 656 pp, with 93 pp formulas, numerous illustrations, coloured, 17 x 24 cm, paper-bound, with CD
Europa-No. 41911 | € 49.70

📖 German 🔄 Kazakh, Russian, Vietnamese

Professions: bricklayers, skilled building construction workers, concrete and reinforced concrete construction workers. Contains the above-mentioned apprenticeship professions in all fields of learning with the prescribed contents. The study content for each of the main construction professions is marked in different colours in the margin. Includes a CD with illustrations and tables and a booklet with information for classroom tests and exams.

Tabellenbuch Bautechnik

Tables for Civil Engineering

18th ed 2024, 528 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 42519 | € 37.30

📖 German

An indispensable reference work for vocational schools, in service courses and further training courses. The book of tables contains formulas, tables and standards and is divided into eight topic areas. Many diagrams, practical examples and explanations of constructional measuring processes help the reader in educational establishments and in the job.

An index with more than 2000 items serves as a source of reference.

Tabellenbuch

Hochbaufacharbeiter, Maurer, Beton- und Stahlbetonbauer

Tables for Building Construction Workers, Bricklayers, Concrete and Reinforced Concrete Workers

1st ed 2024, 184 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 43234 | € 22.90

📖 German

The table book competently conveys the contents for modern construction for the aforementioned training professions as well as for tilers. The tables, formulas, rules and regulations support action-oriented teaching and working on projects.

Bautechnik nach Lernfeldern Grundbildung

Civil Engineering – Basics

5th ed 2024, 288 pp, numerous illustrations, coloured, 19 x 26 cm, paper-bound, digital supplements
Europa-No. 45216 | € 35.70

📖 German

Contains the six required subject fields for trainees in the vocational field of structural engineering. Set-up of construction sites, development and foundation of a construction, building of a single-skin structure, creation of reinforced concrete building components, creation of wood constructions, coating and cladding of a structural member. **Solutions (Europa-No. 45256)** are in preparation.

Bautechnik Fachmathematik

Civil Engineering Technical Mathematics

10th ed 2016, 266 pp and 47 pp formulas, numerous illustrations, 17 x 24 cm, paper-bound
Europa-No. 42012 | € 34.30

📖 German

A textbook and exercise book with basic and advanced mathematical exercises for construction workers, bricklayers, for builders of concrete and reinforced concrete buildings as well as for technical draughtsmen. Detailed application examples serve as models for completion of the exercises set. **Solutions (Europa-No. 4211X)** are available as well.

Bautechnik Technisches Zeichnen

Civil Engineering Technical Drawing

8th ed 2021, 305 pp, numerous illustrations, coloured, DIN A4, paper-bound, digital supplements
Europa-No. 41415 | € 35.70

📖 German 🔄 Greek

This course book explains the principles of architectural drawing as required by the currently applicable standards. The book is suitable for students of structural engineering, builders, skilled reinforced concrete workers and draughtsmen. For all school types that have a training course for the building professions, for advanced and further education courses as well as self-study programmes.

NEW

Bautechnik für Bauzeichner/innen

Construction Techniques for Draughtsmen and -women

4th ed 2025, 864 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 46383 | € 59.30

📖 German

This reference book conveys the current basic and specialist knowledge required by draughtsmen and -women, focusing on architecture, structural engineering, civil engineering, road building and landscaping. Also suitable for further training, vocational academies and for Bachelor's degree course studies.

Bautechnik

Arbeitsbuch Bautechnische Mathematik und Bautechnisches Zeichnen

Construction Techniques

Workbook on Structural Mathematics and Structural Drawing

2nd ed 2024, 222 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 40189 | € 19.70

🇩🇪 German

This workbook deals with the most important mathematical and drawing-related problems for practical work such as area, volume and materials requirements calculations, measurements, layouts and cross-sections.

It is characterised by: use of language appropriate to the pupil, avoidance of an excessive proportion of text and clarity by means of drawings and 3D presentations.

Solutions (Europa-No. 40196) are available as well.

Bautechnik nach Lernfeldern für Zimmerer

Civil Engineering Carpenter

5th ed 2019, 619 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, with CD

Europa-No. 43914 | € 49.90

🇩🇪 German

🇰🇿 Kazakh, Russian

This title encompasses fundamental concepts for professions in the building industry as well as subsequent specialised training for the regulated profession of carpentry. It contains twelve subject areas for specialisation, in addition to the six areas contained in the title "Bautechnik nach Lernfeldern – Grundbildung". A CD containing all images and tables of the book is included.

Solutions (Europa-No. 43962) are available as well.

NEW

Tabellenbuch Zimmerer

Tables for Carpenters

7th ed 2025, 392 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index

Europa-No. 43177 | € 37.30

🇩🇪 German

Reference book for all carpentry apprentices, students at technical colleges and colleges for master craftsmen as well as for practical application by foremen, master craftsmen, technicians and skilled tradesmen in their work. Contains formulas, tables and many illustrations as well as it outlines the contents of national and European standards. Index contains over 2000 keywords; relationships covered by cross referencing.

Bautechnik Straßen- und Tiefbau

Road Constructions and Civil Engineering

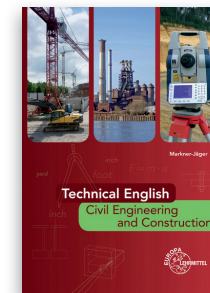

16th ed 2024, 640 pp, numerous illustrations, coloured, 17 x 24 cm, hardcover, digital supplements

Europa-No. 46710 | € 53.90

🇩🇪 German

🇰🇿 Kazakh, Latvian, Russian, Vietnamese

This textbook has been developed for people taking apprenticeships in road building to confidently and competently provide them with the comprehensive fundamentals required. In a clear and understandable manner, this book teaches practitioners at the construction site the increasingly complex methods and procedures used in modern road building. With numerous illustrations and project exercises based on the specifically defined areas of learning.

Technical English Civil Engineering and Construction

1st ed 2013, 128 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 41364 | € 22.90

🇬🇧 English

A text and workbook for civil engineering students at technical colleges and universities who wish to expand their general English knowledge with professional terminology, primarily from the field of civil engineering and related branches. The book is suitable both for self-study as well as for seminar work thanks to the vocabulary lists and the proposed solutions provided.

Bauphysik

Building Physics

11th ed 2022, 524 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 42616 | € 36.30

🇩🇪 German

🇬🇷 Greek, Italian, Russian

Designed for those who are working auto-didactically to become familiar not only with simple but also with more complicated problems and also for students who wish to use it as an adjunct to their course materials or who wish to deepen their knowledge and skills.

Contents: Thermal protection, Damp – Damp protection, Noise – Noise abatement, Fire protection, Construction chemicals.

Fachkunde Holztechnik

Wood Engineering Textbook

26th ed 2023, 704 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 40117 | € 45.90

- German
- Amharic, Czech, Greek, Italian, Latvian, Polish, Russian, Slovenian, Spanish, Vietnamese

The title "Holztechnik Fachkunde" contains the specialized knowledge for the trainee or apprentice, the qualified worker or master and the engineer. It is not only a source of information but it is also a reference work for questions of woodworking techniques and in many aspects a trusty and comprehensive guide. The book explores the changing, more modern production techniques, materials and constructions, control and regulation technology as well as techniques to extract chippings and dust. The book also includes sections on making furniture, interior design work, house doors and windows, techniques for different surfaces and machine theory.

NEW

Tabellenbuch Holztechnik

Tables for Wood Engineering

14th ed 2025, 440 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound, thumb index
Europa-No. 41814 | € 33.90

- German
- Czech, Greek, Portuguese

This book of tables for the timber industry rounds off the popular Europa-Lehrmittel series of text books for the timber professions, providing a comprehensive work of reference. It contains tables, formulas and standards. It can be used alone, or in connection with other course materials, either for beginners, for in-service training, or for day-to-day use "on the job".

Kostenrechnen Holztechnik

Costing in Wood Engineering

14th ed 2023, 258 pp, numerous illustrations, 17 x 24 cm, paper-bound
Europa-No. 40818 | € 34.30

- German
- Greek

Textbook for preparation for the master's certificate examination in the carpenter's craft, for training carpenters and for independent master carpenters. Current costing data for interior fitting work and assembly times give an initial orientation when determining expected times. It contains a small lexicon of costing and estimation.

Holztechnik Gestaltung, Konstruktion und Arbeitsplanung

Wood Engineering Design and Construction

11th ed 2024, 319 pp, more than 600 illustrations, coloured, DIN A4, paper-bound
Europa-No. 41113 | € 33.30

- German
- Czech, Greek, Icelandic

A basic textbook for technical drawing for carpenters, furniture and interior designers, and for workers in the window and glass industries. This revised edition has been extended by including a section on design and project planning. The sections on CNC technology and the basics of design have also been expanded and the chapter on free-hand drawing is completely new.

NEW

Mathematik Holztechnik

Wood Engineering Mathematics

11th ed 2025, 272 pp, more than 600 illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 4001X | € 29.90

- German
- Greek

This edition with numerous illustrations and exercises contains the basic and advanced mathematical knowledge for vocational courses leading to the qualifications of timber mechanic, carpenter, window installation engineer and glazier, as well as technical drawer with specialisation in timber technology. The most important mathematical formulas, the rules for calculation and the key sentences are colour highlighted, making the material somewhat easier to absorb.

Holztechnik Prüfungswissen in Fragen & Antworten

Wood Engineering Examination Knowledge in Questions and Answers

6th ed 2015, 380 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 40915 | € 24.30

- German
- Greek

Comprehensive knowledge of examinations for the apprenticeship, proficiency and master examinations. Clear structure and visible marking of the edge of the book make it easier to find the desired specialist areas. All questions consist of the question itself, the answer and more advanced explanations. The book can thus be used both for exercises and revision and as a reference work.

Arbeitsbuch Holztechnik Wood Engineering Workbook

These workbooks do not just make it possible for students to work through the basic training material: they can also immediately check on the next page, whether they have mastered the acquired knowledge. The books also include three projects, in ascending order of difficulty, for the students to work through. Planning, preparation and monitoring of working processes, reading and drawing up of sketches and designs, knowledge of wood and wood-based materials and the methods of processing them.

Solutions (Europa-No. 44716, 44570) are available as well.

Lernfelder 1–6 Subject Areas 1–6

🔄 Vietnamese

Der Holztreppenbau Wooden Staircase Construction

6th ed 2021, 176 pp, numerous illustrations, coloured, DIN A4, hardcover

Europa-No. 41016 | € 29.30

🇩🇪 German
🔄 Greek, Russian

A completely reworked textbook presenting the necessary specifications and designations, different constructions, measurement techniques in staircase construction, elevations and manufacturing techniques. The constructions can be easily followed. Modern manufacturing techniques are described, including CNC technology using a computer.

Prüfungsvorbereitung aktuell Holztechnik Exam Preparation – Wood Engineering

3rd ed 2016, 496 pp, numerous illustrations, coloured, DIN A4, paper-bound,
with solutions (150 pp)

Europa-No. 40985 | € 36.30

🇩🇪 German

The examination book contains examination-relevant topics for preparation for the intermediate, trained craftsman, master craftsman, technician and school-leaving examinations. Additional task examples have been created for economics and social studies.

Fachwissen Maler und Lackierer

Specialist Knowledge Painters and Varnishers

8th ed 2024, 440 pp, numerous illustrations, coloured, DIN A4, hardcover, digital supplements

Europa-No. 44368 | € 44.90

🇩🇪 German 🔄 Russian

The book is a textbook and reference book for painters, paint sprayers and lacquerers during vocational training and in everyday practice. Also the fundamentals of vehicle paint spraying, and building and object coater apprenticeships are taken into consideration. Due to its distinct structure, the book is recommendable for exam preparation and self-study and is a very valuable reference book.

Tabellenbuch Farbtechnik Tables for Colour Technology For Painters and Varnishers

1st ed 2024, 408 pp, coloured, numerous illustrations, 15.2 x 21.5 cm, paper-bound, thumb index

Europa-No. 44280 | € 27.90

🇩🇪 German

The new book of tables is an indispensable reference work for basic and advanced training as well as for professional everyday usage. It imparts technical experience while incorporating standards and regulations. The clear structure and the comprehensive subject index allow quick access to the contents. Accompanying illustrations and diagrams take into account the different learning abilities of the learners.

NEW

Mathematik Maler und Lackierer, Fahrzeuglackierer

Mathematics Painters and Varnishers, Vehicle Painters

3rd ed 2025, 204 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 44334 | € 26.30

🇩🇪 German

The special knowledge book was devised for vocational education courses and is very well suited for use in the classroom as well as for further education courses, for example in technical and master schools. It can be recommended for examination preparation and for self-study since it is target-oriented and clearly structured. The language is easy to understand so that students can comprehend the tasks encountered in practice. **Solutions (Europa-No. 44303)** are available as well.

Fachwissen Fahrzeuglackierer

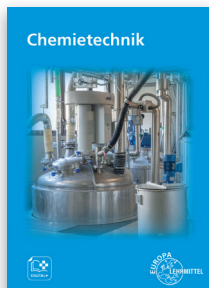

Specialist Knowledge Vehicle Painters

4th ed 2022, 432 pp, numerous illustrations, coloured, DIN A4, hardcover, digital supplements

Europa-No. 20154 | € 51.90

🇩🇪 German 🔄 Kazakh, Romanian, Russian

Comprehensive text and course book for the apprenticeship, in-service and advanced training of vehicle painters in the professional field paint technology. It provides access to complex professional knowledge for the core occupation of vehicle painters and deals with important topics of associated trades. Can be used during the initial apprenticeship as well as in technical and master colleges.

Chemietechnik Chemical Engineering

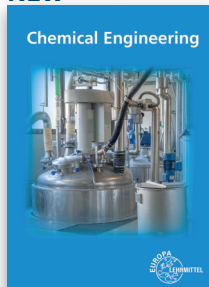

13th ed 2022, 630 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 70415 | € 59.90

🇩🇪 German
🔄 Chinese, Greek, Norwegian, Russian, Slovenian, Spanish
🔄 Vietnamese, English

This is a course book for courses in technical colleges and engineering schools as well as for company training. The book deals with the layout of chemical plants and the function of the various parts of the plant. It offers an introduction into chemical processes, including measurement, control, regulation and process technology. It also covers the essentials of environmental technology and safety at work. Intended for those employed in the developmental and production departments in the chemical industry, the pharmaceutical industry and the food processing industry, for trainees in those industries, and for everybody who simply wants to learn more about these topics.

NEW

Chemical Engineering

1st ed 2026, 630 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 77475 | in prep.

🇩🇪 English

English translation of the well known "Chemietechnik" (13th edition).

Tabellenbuch Chemietechnik

Tables for Chemical Engineering

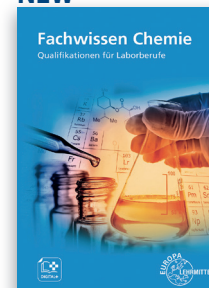

13th ed 2024, 464 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound

Europa-No. 70717 | € 39.90

🇩🇪 German
🔄 Vietnamese

"Tabellenbuch Chemietechnik" is a useful reference book of tables and formulas for trainees, students, professionals and teachers in the areas of chemical production technology, especially for future and current chemical workers in industry, chemical technicians (with the emphasis on production and laboratory technology), industrial chemists, chemical workers, chemical engineers, chemical laboratory workers, pharmaceutical workers, utilities engineers, recycling engineers, and other professional groups whose work touches on chemical production technology.

NEW

Fachwissen Chemie Qualifikationen für Laborberufe

Chemistry Qualifications for Laboratory Professions

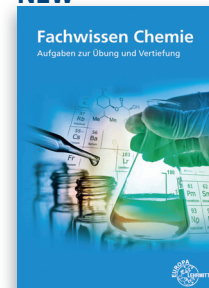

2nd ed 2025, 880 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements

Europa-No. 69528 | € 61.30

🇩🇪 German

A comprehensive textbook on general inorganic, organic, physical and analytical chemistry and on modern laboratory techniques for trainee laboratory chemists and technical chemistry assistants as well as for students. It contains comprehensive additional digital materials: all images and tables as well as supplementary sections on quality and quality systems, taking samples, the principles of electrochemistry and microbiology.

NEW

Fachwissen Chemie Aufgaben zur Übung und Vertiefung

Chemistry Exercises for Practice and Consolidation

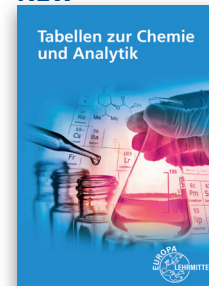

1st ed 2025, 496 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 71132 | € 48.30

🇩🇪 German

The exercise book is based on the content structure of the textbook Chemistry – Qualifications for laboratory professions (Europe No. 69528). It can be used in parallel with the textbook in class or to prepare for or follow up on the subject matter covered in class or in lectures. It is also a valuable aid in preparing for tests and exams. A separate book with solutions is enclosed.

NEW

Tabellen zur Chemie und Analytik

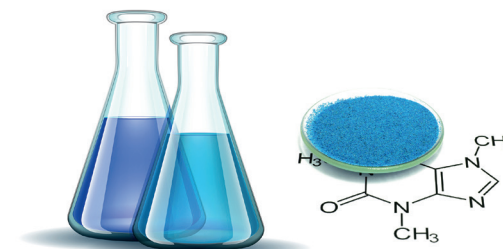

Tables for Chemistry and Analytics For Apprenticeship, University Studies and Professional Life

17th ed 2025, 96 pp, 15.2 x 21.5 cm, stapled

Europa-No. 27016 | € 20.70

🇩🇪 German

This collection of formulas contains all the important and required formulas for calculations related to apprenticeship as an agricultural and construction machinery mechatronics engineer (without sample exercises). Numerous pictures and diagrams are used to illustrate complex issues.

Technische Mathematik für Chemieberufe

Technical Mathematics for Professions in Chemistry

7th ed 2022, 360 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 71314 | € 37.30

🇩🇪 German

This combined text and exercise book on the subject of technical mathematics is intended both for use in schools and for professional training. It is especially suitable for training in positions involving responsibility for production in the chemical industry. As well as the mathematical fundamentals, the book above all gives the student knowledge of the specialised mathematics that is required in professions in the fields of chemistry, physics and chemical technology.

Solutions (Europa-No. 71411) are available as well.

Berechnungen zur Chemietechnik

Calculations for Chemical Engineering

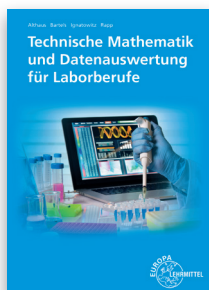

1st ed 2014, 301 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 71378 | € 34.30

🇩🇪 German

🇻🇳 Vietnamese

Textbook and exercise book for advanced training in the specialist field of chemical engineering. Introduction to the content of each section on chemical engineering with calculation equations, calculated sample exercises and a large number of tasks. Mixed tasks and project tasks as preparation for examinations. This book builds on the mathematical principles of chemical calculation in the Technical Mathematics for Chemistry Professions book.

Technische Mathematik und Datenauswertung für Laborberufe

Technical Mathematics and Evaluation of Data for Laboratory Professionals

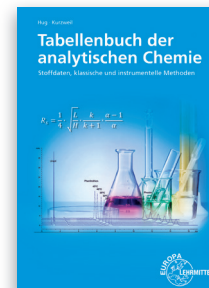

8th ed 2021, 544 pp, numerous illustrations, 17 x 24 cm, paper-bound

Europa-No. 71713 | € 39.90

🇩🇪 German

This combined textbook and exercise book makes students acquainted not only with the fundamental mathematical principles, but also with the wide variety of job-related mathematical knowledge required in the fields of chemistry, physics, statistics, reaction kinetics, analysis, laboratory techniques and IT. At the end of each chapter students are invited to consolidate what they have learned by working on practical exercises. This is a suitable textbook for schooling and operational training in connection with the laboratory professions.

Solutions (Europa-No. 71764) are available as well.

Tabellenbuch der analytischen Chemie

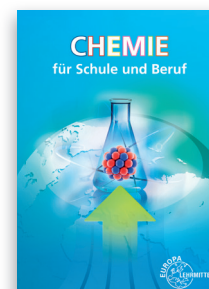

Tables for Analytic Chemistry

1st ed 2017, 472 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 71552 | € 46.90

🇩🇪 German

This clearly structured reference work provides answers to practical, analytical matters in training, studies and profession from wet chemical ion analysis, dimensional analysis, polymer, thermal and electrochemical analysis including structure elucidation and modern chromatography. Extensive data materials examine the chemical elements, inorganic and organic compounds, including nomenclature. The extensive tables are explained using a condensed presentation of the theoretical principles.

Chemie für Schule und Beruf

Chemistry for Schools and Professions

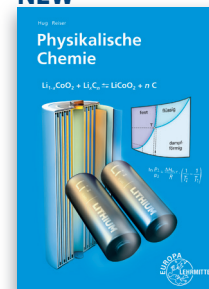

6th ed 2020, 320 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 70512 | € 32.90

🇩🇪 German

Text and exercise book for learning the fundamentals of chemistry and chemical technology at school or as part of basic vocational training. Topics covered: fundamentals of general chemistry, inorganic chemistry and technology, organic chemistry and technology, natural materials and biochemistry, chemistry, mankind and the environment.

NEW

Physikalische Chemie

Physical Chemistry

6th ed 2025, 451 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 71519 | € 40.90

🇩🇪 German

A textbook which illustrates the basic areas of physical chemistry with many relevant graphics and diagrams but without any reference to complicated mathematics. For trainees, students and practitioners in the chemistry-oriented professions and inter disciplinary areas.

Instrumentelle Analytik Theorie und Praxis

Instrumental Analysis Theory and Practice

4th ed 2020, 544 pp, approx. 500 illustrations and tables, coloured, 17 x 24 cm, paper-bound

Europa-No. 72116 | € 53.90

🇩🇪 German

Introductory instruction and exercise book for instrumental analysis on a modern, up-to-date basis. Main focus on: principles of the measuring and separation methods of instrumental analysis: description of equipment and metrology; instructions for spectra interpretation; sampling and quality assurance. Target groups: students at technical colleges and universities, further education.

Technische Physik

Technical Physics

7th ed 2021, 640 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 5231X | € 49.90
 🇩🇪 German

A complete physics course in one volume based on the syllabuses for two year technical college courses. The volume contains the areas of mechanics of solid particles, fluid mechanics, thermal theory, oscillations and waves, optics and acoustics, electricity, and atomic and nuclear physics. More than 1,440 practical tests deepen the student's knowledge and link the material to the skills required for professions in the field of technical physics.

Technische Physik Formel- und Tabellensammlung

Technical Physics Formula and Table Collection

7th ed 2023, 202 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound
Europa-No. 52514 | € 24.90
 🇩🇪 German

This title corresponds to the structure of the book "Technical Physics" – textbook and task book (Europa-No. 5231X). Both titles can be used in parallel or independently of each other.

NEW

Biologie für das Medizinstudium

Biology for Medical Studies General and Molecular Fundamentals, Clinical Applications

1st ed 2025, 416 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 62365 | € 39.90
 🇩🇪 German

Teaches the biological fundamentals of medical studies and supplements them with examples of clinical applications. Includes numerous exercises to help prepare for exams.

NEW

Fachwissen Biologie und Biotechnik

Biology and Bioengineering Textbook

5th ed 2025, 348 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 70951 | € 35.70
 🇩🇪 German
 🔄 Vietnamese

A text and workbook suitable for vocational training in the occupational fields chemistry, physics and biology as well as for professional practice in bioengineering. It takes into account the particular importance of bioengineering in the chemical, pharmaceutical and food industries by providing a focus on biotechnology in addition to the fundamentals of biology. **Solutions (Europa-No. 70746)** are available as well.

Molekulare Biologie und Mikrobiologie

Molecular Biology and Microbiology

3rd ed 2022, 495 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 69733 | € 45.90
 🇩🇪 German

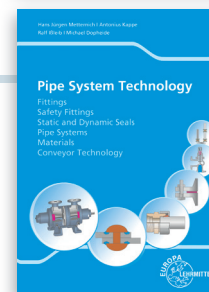

The biological functions and basic processes of organisms on molecular and cellular levels are clearly and comprehensibly explained in this course book. The book does not require much previous knowledge and is suitable for all people interested in modern biology and microbiology, for students who deal with biological and microbiological issues in the laboratory, as well as for learners in biological-microbiological specialist areas.

Rohrsystemtechnik Pipe System Technology

3rd ed 2014, 224 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 70777 | € 37.70
 🇩🇪 German
 🔄 Vietnamese

This practically-orientated textbook about pipe systems technology is tailored to training courses in the field of chemical production and processing and to courses in the chemicals industry to permit chemical technicians with practical experience, industrial masters in chemistry, process technicians and plant and industrial engineers to deepen their specialist knowledge. The enclosed CD contains the Pipe System Technology module with visual presentation of the techniques and processes described in the book.

Pipe System Technology

1st ed 2019, 222 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 70773 | € 39.90
 🇬🇧 English

First English translation of the title "Rohrsystemtechnik" (Europa-No. 70777). From the content: fittings, safety fittings, static and dynamic seals, pipe systems, materials, conveyor technology.

Fachwissen Umwelttechnik

Expertise Environmental Engineering

9th ed 2024, 568 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound, digital supplements
Europa-No. 34915 | € 42.90
 🇩🇪 German
 🔄 Greek, Vietnamese

Wide-ranging textbook covering basic and specialist knowledge of environmental engineering with the following content: environmental protection and environmental engineering, chemical and physical bases, biological bases, analysis, environmental law, environmental pollution, energy supply, dealing with environmental pollution, pipe systems and channel systems, business administration, the use of IT, electrolysis, microorganisms, fracking, control of network frequency, energy management systems, vehicle charging stations and LEDs.

Spedition und Logistik – Haulage and Logistics

Study and exercise books for vocational training as a Forwarding Agent and Logistics Services Specialist. The books cover a field of study each. Structure: materials chart, case studies, more advanced questions.

Band 1 Lernfelder 4–6 Volume 1 Subject Areas 4–6

8th ed 2023, 361 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 72418 | € 33.30
German

Band 2 Lernfelder 9, 12–14 Volume 2 Subject Areas 9, 12–14

5th ed 2022, 370 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 72469 | € 33.30
German

Comparison of modes of transport, road transport, rail transport, shipping law and insurance, groupage and scheduled transport

Solutions (Europa-No. 7240XL) are available as well.

Offering and organising logistics services, developing and implementing marketing measures

Solutions (Europa-No. 72523L) are available as well.

NEW

Fachkunde Veranstaltungstechnik

Event Engineering Textbook

1st ed 2024, 560 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 60877 | € 49.90
German

Standard book for getting started in the event engineering sector. In 11 chapters, the book covers all the relevant topics such as occupational health and safety, construction law, mechanics, rigging, stage machinery, temporary structures, energy supply, lighting technology, sound technology, media technology, soft skills and logistics. The relevant standards and regulations are presented in an easy to understand manner.

NEW

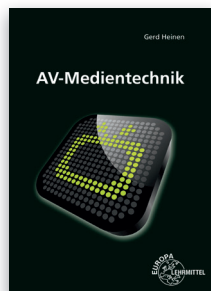

Mediengestalter Digital und Print

Media Designers in Digital and Print Basic Qualifications

1st ed 2025, 600 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 38524 | in prep.
 German

New textbook for media designers in their first and second years of training. Clearly structured, with numerous tasks to help prepare for exams.

AV-Medientechnik

AV Media Technology

3rd ed 2019, 368 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 37418 | € 34.90
 German

“AV-Medientechnik” is a systematic and easy-to-understand guide to professional practice, studies and training in film and television production. All areas of film and television production are explained by means of real situations from practice and enriched with sample images and specific “best practice” tips.

AV-Mediengestaltung Grundwissen

Media – Audio-Visual Designing

9th ed 2024, 280 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 37310 | € 28.30
 German

Course book for media design trainees. The book teaches the basics of areas relevant to film and television – graphical principles of imagery, sound design, camera work, dramaturgy, lighting, cutting and editing. Projects and exercises at the end of each chapter help to consolidate the material, analyses sharpen the eye and the sensibility for the design of audio-visual productions.

Prüfungsvorbereitung aktuell Mediengestalter/-in Digital und Print

Exam Preparation – Media Designers in Digital and Print

2nd ed 2022, 319 pp, numerous illustrations, coloured, DIN A4, paper-bound, with solutions (171 pp)
Europa-No. 35363 | € 37.70
 German

Workbook and examination book for training as media designer in digital and print, for full-time vocational courses and for students in the field of media design. Tailored to training regulations and the KMK (Ministers of Education Conference) framework curriculum for training as media designer in digital and print and matched to previous intermediate and final examinations. Includes a separate booklet of solutions for checking the results on the exercises on fields of knowledge and the written sample, interim and final examinations.

NEW

Visualisierte Kommunikation

Visualised Communication

5th ed 2025, 280 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound
Europa-No. 37756 | € 29.90
 German

The practice-orientated and heavily illustrated textbook provides established basic information on the conception and design of printing and digital media, taking into consideration the respective communicative purpose and the target group. It explains the elementary fundamentals of design for the creation of numerous media products, from simple graphic symbols all the way to complex corporate designs. Professions: digital and print media designer, media technology assistant.

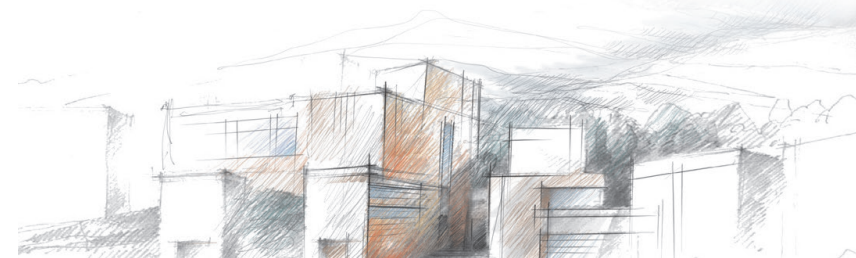

Professionell skizzieren – zeichnen – präsentieren

Professional Sketches, Drawings, Presentations

3rd ed 2013, 209 pp, approx. 800 drawings and illustrations, coloured, DIN A4, hardcover, with DVD
Europa-No. 4550X | € 41.30
 German

Freehand drawing with traditional drawing tools and computer applications. Drawing processes in images, text and video clips. Architecture, landscape, interior and product design. Subject-specific exercises. Image composition, perspectives, introduction of traditional media/drawing tools (black and white, and colour techniques) and their applications, perspective construction exercises, introduction to virtual media/image editors, their computer tools and applications.

Haut & Haar Friseurfachkunde

Skin & Hair Textbook for Hairdressers

9th ed 2022, 532 pp, numerous illustrations, coloured, DIN A4, hardcover

Europa-No. 65810 | € 43.90

🇩🇪 German

🔄 Czech, Greek, Kazakh, Polish, Russian

A study manual for trainee hairdressers. The subjects of hair cutting, dyeing and shaping are all covered as well as care and cleaning of hair. Matters of the scalp, of manicuring and of cosmetics are all dealt with in sufficient depth. All subjects are supplemented by extensive practical guides, by modern photographs and illustrations. The key facts are summarized in tables. The exercises at the end of each chapter test the success of the learning process and further expand upon it.

NEW

Lernjobs für Friseure – Learning Jobs for Hairdressers

These workbooks provide learners and teachers with classroom-based learning tasks. Learning tasks guide the learning process by providing a series of assignments that are designed according to the principle of complete action and are made visible through learning or action products. Each learning field booklet contains several learning situations.

Each learning task is underpinned by work assignments in the information phase. These can be determined by the teacher in a methodologically flexible manner in order to adapt them to the respective learning group.

Currently available: Learning fields 1–7. Learning fields 8–13 are in preparation.

The paper-bound workbooks are in DIN A4 format and contain numerous colour illustrations and digital supplements.

Europa-No. 62722 | € 22.90

🇩🇪 German

Revision questions and more advanced questions from the examination subjects of hairdressing techniques, salon and customer management, business and integrated specialist mathematics. Open and half-open examination questions, multiple choice questions. The pages are divided into two columns throughout. The left column contains the questions and tasks and in the right column you will find the relevant answers or solutions.

Bildwörterbuch PLUS Friseur/Friseurin

Illustrated Dictionary PLUS Hairdressers

1st ed 2020, 160 pp, numerous pictures, coloured, 12 x 18 cm, paper-bound, digital supplements

Europa-No. 64769 | € 16.30

🇩🇪 German/English

The ideal guide for people with little knowledge of German who are taking part in professional training for hairdressers. The most important items/technical terms from day-to-day professional life in the salon are presented by means of pictures. With every term: Photo with the term named in German/English translation showing a typical activity, brief informative sentence, a suitable message. Audio files are available online.

Fachwissen Professionelle Textilpflege Professional Textile Care

1st ed 2018, 419 pp, numerous illustrations, coloured, DIN A4, hardcover
Europa-No. 60600 | € 49.70
 German
 English, Vietnamese

This book conveys the specialist knowledge required in vocational college training in line with applicable legislative provisions. It contains a comprehensive section on commodities science and conveys all the relevant principles of technical processes and explanations of power generation, health and safety at work, environmental protection, advising customers and management systems.

Technologie de l'entretien professionnel des textiles

1st ed 2022, 396 pp, numerous illustrations, coloured, digital book
Europa-No. 64660L | € 59.90
Europa-No. 64660V | € 20.30
 French

Cet ouvrage spécialisé, la traduction de la première édition allemande « Fachwissen Professionelle Textilpflege », s'adresse avant tout aux apprentis, aux nouveaux venus dans la branche, et aux professionnels du secteur de l'entretien textile. Il peut être utilisé comme livre de référence dans les écoles professionnelles, les cours de maîtrise et les cours techniques, ainsi que dans les établissements supérieurs et les entreprises.

Fachwissen Gebäudereinigung Specialist Knowledge Building Cleaning

9th ed 2022, 424 pp, numerous illustrations, coloured, DIN A4, hardcover, digital supplements
Europa-No. 44414 | € 67.70
 German

This is a basic textbook for apprentices, a reference work for candidates to the degree of master craftsman and other cleaning contractors. Revision tasks at the end of each chapter with retrievable solutions. There are several short videos on the subjects of glass cleaning, cleaning of non-textile coverings and cleaning of textile surfaces, which can be accessed via QR code.

NEW

Faszination Floristik Fascination Floristry

7th ed 2025, 510 pp, numerous illustrations, coloured, DIN A4, hardcover
Europa-No. 66159 | € 53.90
 German
 Chinese

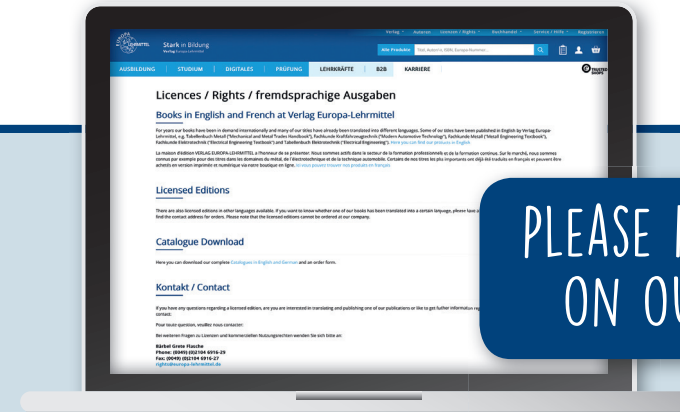

This book includes all areas of florist training. Highlighted elements such as phrases, practical tips and interesting facts beyond the basics as well as numerous coloured illustrations structure the texts and guide you through the subject matter. The book also offers a list of plant examples and a glossary. It offers new, forward-looking content on topics such as the digitalised world of work, environmental protection and sustainability, as well as innovative business management.

Prüfungsvorbereitung aktuell Florist/Floristin Exam Preparation – Florists

2nd ed 2020, 250 pp, numerous illustrations, coloured, DIN A4, paper-bound, with solutions (approx. 130 pp)
Europa-No. 66190 | € 31.30
 German

This title covers all sections of the written final examination for florists: technology, inventory management, business and social studies. As in the real examination, the examination section on technology contains open questions that are to be answered in the examinee's own words. In contrast, the sections on inventory management and business and social studies offer structured exercises (multiple choice). The content of the examination preparation builds on the content of the specialist "Fascination Floristry" studies. Solutions in a separate booklet.

6th ed 2014, 316 pp, numerous illustrations, coloured, DIN A4, hardcover

Europa-No. 62218 | € 53.90

📖 English

🔄 French, Kazakh, Russian
🔄 Vietnamese

English translation of the 10th edition of the well-known "Fachwissen Bekleidung".

Technologie Confection et habillement

1st ed 2023, 327 pp, numerous illustrations, coloured, DIN A4, hardcover

Europa-No. 64646 | € 54.30

📖 French

Ce titre est la traduction de la 11e édition du titre « Fachwissen Bekleidung ». Il est un ouvrage de référence pour de nombreux métiers et filières de formation dans le champ professionnel textile/habillement. Il se caractérise par une mise en page concise et compacte, des illustrations complètes, une structure claire et un langage techniquement compréhensible.

Arbeitsheft Warenkunde Bekleidung

Exercise Book on Commodities Science Clothing

3rd ed 2013, 64 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 6220X | € 15.70

📖 German 🔄 Vietnamese

This exercise book goes with the textbook on "Fachwissen Bekleidung/Clothing Technology" and contains introductory information about fibre, thread and surface analysis and an overview of fabric surfaces, their characteristics, properties and opportunities for use. Some of the images of the most important outer fabrics, linings and interlinings in alphabetical order are provided with magnifying glass-scale enlargements.

NEW

Prüfungsbuch Bekleidung

Examination Book Clothing Technology

6th ed 2025, 334 pp, numerous illustrations, coloured, 17 x 24 cm, paper-bound

Europa-No. 61955 | € 26.90

📖 German

The examination book serves to consolidate knowledge and to prepare for the intermediate and final examinations in technical clothing professions such as textile and fashion sewing, textile and fashion tailoring, alteration tailoring, made-to-measure tailoring and fashion design. Suitable – also as a reference book – for use in vocational, master and technical schools as well as in vocational colleges and technical colleges.

Mode – Zeichnen und Gestalten

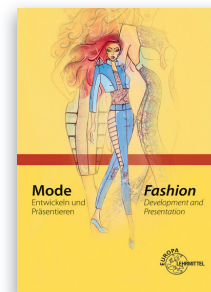

Fashion – Illustration and Design

1st ed 2019, 208 pp, numerous illustrations, coloured, DIN A4, hardcover

Europa-No. 62499 | € 39.30

📖 German/English

The bilingual edition (German/English) is suitable for training at vocational colleges, vocational and technical schools, for fashion designers in practice and also for self-study. The essential basics of fashion drawing are conveyed concisely and comprehensibly.

Mode Entwickeln und Präsentieren

Fashion Development and Presentation

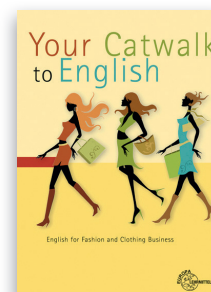

1st ed 2013, 240 pp, numerous illustrations, coloured, DIN A4, hardcover

Europa-No. 62550 | € 41.90

📖 German/English

🔄 Vietnamese

The bilingual edition (German/English) is suitable for vocational colleges and schools, technical schools and upper vocational schools. All illustrations are pupils' creations. The content is largely made up of suggestions for project tasks that complement introductions to different subject matters. Professions/school types: clothing technology assistant, professional schools for clothing and fashion, fashion tailor.

Your Catwalk to English English for Fashion and Clothing Business

1st ed 2012, 171 pp, numerous illustrations, coloured, DIN A4, paper-bound

Europa-No. 79855 | € 19.70

📖 English

This textbook is for trainees and students of clothing and design. Simple texts and explanatory pictures on different product groups, topics on the history of costume, and production-relevant processes help mid-level students (CEFR B1/B2) to learn the industry jargon. Depending on the knowledge they already possess, the chapters can be worked through independently of one another. Professions: tailor, textiles and clothing.

Fertigung Bekleidung

Grundlagen rationeller Verarbeitungstechniken

Clothing Manufacturing

Basics of rational processing techniques

1st ed 2022, 421 pp, numerous illustrations, coloured, DIN A4, hardcover

Europa-No. 62433 | € 27.90
 German

This practice-oriented handbook and is aimed at the following target groups: educational professionals, students in practice-integrated training, educators in institutions, interns, parents of children with behavioural problems. It offers a comprehensive overview of behavioural problems in infants and young children. For each disorder, it explains whether and when treatment is necessary and how specific educational and therapeutic measures can be taken.

Ernährungswissenschaft Nutritional Science

8th ed 2023, 743 pp,
numerous illustrations,
coloured, 17 x 24 cm,
paper-bound
Europa-No. 60517 | € 45.90
German

An expert-level nutritional science textbook. With a solid foundation in natural sciences, the book explains all nutritional ingredients of food, their chemical properties, reactivity and functions in the human body. Other subjects covered in the book include food ingestion and utilization, practical nutrition and illnesses related to a superabundance of food.

NEW

Kreativ Ernährung entdecken Discover the Creative Aspects of Nutrition

5th ed 2025, 502 pp,
numerous illustrations,
coloured, 19 x 26.5 cm,
paper-bound, digital supplements
Europa-No. 66965 | € 39.90
German

A modern textbook about nutrition introducing pupil-oriented teaching methods and working techniques suitable for practical application in line with the syllabus. Focus on food, nutrients, nutrient and energy requirements, metabolism, wholefood diet at different ages, alternative diets/world sustenance, malnutrition and dietetics, food toxicology, food trends, food legislation, food hygiene/out-of-home catering.

NEW

Kreativ Kochen lernen Creative Cooking

10th ed 2025, 532 pp,
numerous illustrations and
photos, coloured, DIN A4,
folder, digital supplements
Europa-No. 66817 | € 38.30
German

This folder was created particularly for students in their first year of instruction in the subject of nutrition and home economics. It is equally suitable for anyone who enjoys cooking and at the same time would like to deepen their knowledge of fermentation techniques, the use of foods, or table culture. Numerous recipes are just waiting for you to try them out.

Kochen & Backen Grundkenntnisse Cooking & Baking Basic knowledge

6th ed 2020, 403 pp, numerous
illustrations, coloured, 17 x 24 cm,
hardcover
Europa-No. 60614 | € 30.30
German

This modern textbook contains the basics of cooking and baking in theory and practice. Part 1: Basic knowledge (including hygiene, equipment, nutrition, service, merchandise knowledge), Part 2: Practice and recipes (including preparation techniques, cooking techniques, basic recipes).

Edition
Harri
Deutsch

EDITION HARRI DEUTSCH

In 2013 we took over the publishing programme of Verlag Harri Deutsch with natural sciences books for universities and technical colleges.

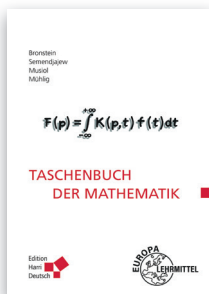

By purchasing individual titles of the publisher Harri Deutsch, the programme has been intensively developed and expanded under the name of Edition Harri Deutsch.

The wide range includes books on:

- Mathematics
- Physics
- Chemistry
- Technique
- Biology
- Reference books
- Specialized books

Verlag Europa-Lehrmittel GmbH & Co. KG

Taschenbuch der Mathematik (Bronstein)

Pocket Book of Mathematics

11th ed 2020, 1,280 pp, numerous illustrations, 13.8 x 19.7 cm, softcover
Europa-No. 56702 | € 38.30
 German
 Chinese, English, Hungarian, Polish, Serbian, Slovenian

The "Bronstein" has become an indispensable reference book for generations of engineers and natural scientists. The pocket book covers a cross section of mathematics, which is useful for students and practising engineers, natural scientists and mathematicians as well as for university professors. In accordance with the intention of the initial authors, I. N. Bronstein and K. A. Semendjajew (1937), the book aims to provide easily understandable information in a well-illustrated manner to engineers and natural scientists.

NEW

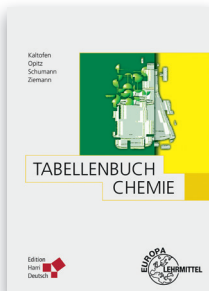

Taschenbuch der Chemie

Pocket Book of Chemistry

23rd ed 2025, 952 pp, numerous illustrations, 13.8 x 19.7 cm, softcover
Europa-No. 57624 | € 38.30
 German
 Polish

The "Pocket Book of Chemistry" is divided into three main parts: general, inorganic and organic chemistry. The contents cover the syllabus subjects of upper grammar school classes, college classes and basic chemistry courses at university. On this basis, terms are defined, laws and interrelationships are derived and their application is explained in examples. Numerous illustrations facilitate comprehension; important data are shown in tables. Overviews are supplemented by information about the elements in question and their compounds.

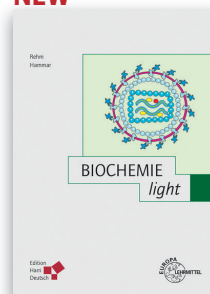

Tabellenbuch Chemie

Tables for Chemistry

13th ed 1998, 287 pp, 14.8 x 21 cm, paper-bound
Europa-No. 56627 | € 29.30
 German

This reference work contains: General tables such as units of measurement, atomic masses, constants of elements, organic and inorganic compounds, solubility of solids and gases, etc. analytical tables such as dimensional equivalents, pH values, buffer mixtures, electrochemical equivalents.

NEW

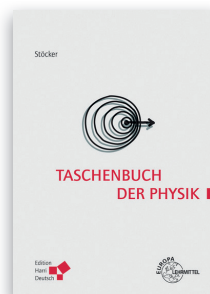

Biochemie light

Biochemistry light

7th ed 2025, 200 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 54425 | € 32.30
 German

"Biochemistry light" concentrates on the essentials, i. e. on important contents for high-level classes, internships, university exams and preliminary medical exams. The textbook is intended for students of medical, pharmaceutical and natural sciences at university. Thanks to "Biochemistry light", pupils and students know what is important, gain an overview and understand the interrelationships. The theory and standard techniques are presented in a compact manner.

Taschenbuch der Physik

Pocket Book of Physics

9th ed 2021, 1,119 pp, numerous illustrations, 13.8 x 19.7 cm, softcover
Europa-No. 56740 | € 38.30
 German
 English, French, Korean, Polish, Russian

The "Pocket Book of Physics" was prepared by a team of experienced university teachers, scientists and practising engineers. Their intention was to provide engineers with a handy, compact guide to physics. All important terms, formulas, measuring techniques and applications are compiled in a compact manner. Above all, the comprehensive table sets for mechanical engineering on oscillations/waves/acoustics/optics, electricity, thermal dynamics and quantum physics make this book an indispensable reference for engineers and scientists working in the physical engineering sector.

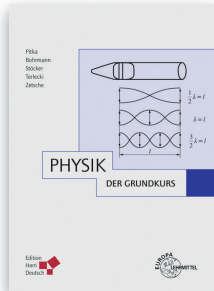

Taschenbuch der Regelungstechnik

Tables for Control Technology

12th ed 2021, 1600 pp, 13.8 x 19.7 cm, softcover
Europa No. 56788 | € 46.90
 German
 Chinese

This reference book is aimed at students of electro-technology, mechanical engineering and general engineering sciences. Thanks to its comprehensive and yet compact presentation it is also suitable for practical engineering and technical use and it can also be used as an accompanying text for control technology-related lectures.

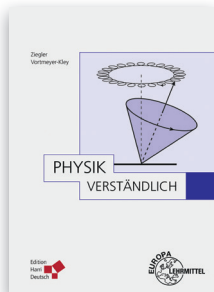

Physik – Der Grundkurs

Physics – Introductory course

5th ed 2013, 480 pp,
16 x 23 cm, paper-bound
Europa-No. 56207 | € 33.90
📖 German

Textbook and workbook for Bachelor students at polytechnic colleges. The authors attach great importance to many calculated examples with varying degrees of difficulty as well as tested exam exercises with solutions and exercises with a high degree of practical relevance. The summaries of the individual chapters are also helpful. Target groups: Students and teachers in engineering and natural sciences at universities.

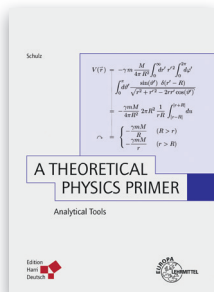

Physik, verständlich

Physics, understandable

2nd ed 2019, 447 pp,
17 x 24 cm, paper-bound
Europa-No. 57822 | € 43.70
📖 German

Making the concepts and models of physics transparent is the central concern of "Physics, understandable". Formulas play only a subordinate role in this book, in contrast to historical backgrounds. A stimulating read – not only for student teachers.

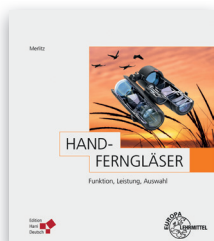

A Theoretical Physics Primer

Analytical Tools

1st ed 2015, 375 pp,
16 x 23 cm, paper-bound
Europa-No. 57860 | € 32.30
📖 English

This textbook on physics recommends a slightly unusual but very consequent and straightforward way into this horrible field of science. Soon one encounters formulas. But the given detailed explanation of each symbol and sign rests on the pictures and perceptions known to everyone from daily life – no experiments, no computer, no videos. Imagination saves time.

Handferngläser Funktion, Leistung, Auswahl

Hand Binoculars Function, performance, selection

2nd ed 2019, 255 pp,
numerous illustrations, coloured,
21 x 24 cm, paper-bound
Europa-No. 57747 | € 49.30
📖 German

Since the publication of the first edition, the "Hand binoculars" have become a reference in terms of binocular technology, performance and application. The discerning observer benefits from the well-founded knowledge as does the binocular salesman, who finds this book a competent and entertaining addition to his training material.

PFANNEBERG

FACHBUCHVERLAG PFANNEBERG

Fachbuchverlag Pfanneberg is a specialist for textbooks and specialist books in the field of gastronomy trade and catering industry.

The publishing company Fachbuchverlag Dr. Pfanneberg was founded in 1949 in Gießen as the successor of Heinrich-Killinger-Nachf.-Verlag, Nordhausen and Leipzig.

With the merger of the publishers Europa-Lehrmittel and Pfanneberg in 1997, the programme has been intensively developed and expanded.

The wide range includes books and software on:

- Hotel | Restaurant
- Cooking
- Recipes
- Dictionaries | Correspondence

Fachbuchverlag Pfanneberg

Der junge Koch/ Die junge Köchin

The Young Chef

38th ed 2022, 1,152 pp, numerous illustrations, coloured, 19 x 26.5 cm, hardcover, digital supplements
Europa-No. 04038 | € 49.90

🇩🇪 German
🔄 Chinese, Greek, Mongolian, Slovenian, Spanish, Vietnamese
🔄 Czech

The current edition offers a new and modern layout, which supports the technical knowledge transfer through many photos and graphics, tabular overviews and sequence views. Current picture material ensures vividness and proximity to practice, new authors bring complementary competences as well as rich experience from practice and teaching.

Award of the Gastronomic Academy of Germany (GAD)

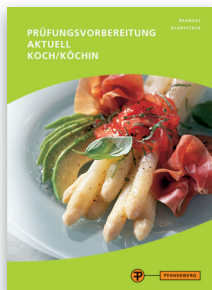

Arbeitsheft Koch/Köchin

Workbook for Chefs

1st ed 2024, 267 pp, numerous illustrations, coloured, DIN A4, paper-bound
Europa-No. 07350 | € 22.90

🇩🇪 German

Traditional worksheets for theoretical and practical instruction aligned to the current edition of "Der junge Koch/Die junge Köchin". The material includes varied methodology, such as new topics and mindmaps. The worksheets are ideally suited for revision and constitute the ideal preparation for an examination.
Solutions (Europa-No. 07367) are available as well.

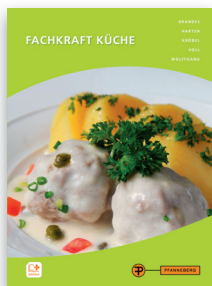

Prüfungsvorbereitung aktuell Koch/Köchin

Exam Preparation – Chef

3rd ed 2019, 288 pp, DIN A4 paper-bound
Europa-No. 06032 | € 28.30

🇩🇪 German

Just like in the exam: this title covers all theoretical parts of the written examination for chefs: technology, merchandise management as well as economics and social studies. Each examinee is not only familiarized with the relevant learning content, but also with the essential forms of the task.

Fachkraft Küche

Kitchen specialist

1st ed 2022, 880 pp, numerous illustrations, coloured, 19 x 26 cm, hardcover, digital supplements
Europa-No. 08265 | € 42.30

🇩🇪 German
🔄 Vietnamese

This is the comprehensive book on the new 2-year vocational training profession of "kitchen specialist". It covers the contents of learning fields 1 to 10. Ideal for mixed classes: identical in page with "Der junge Koch/Die junge Köchin" (Europa-No. 04038).

NEW

Die praktische Prüfung Koch/Köchin

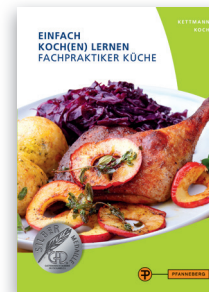

The Practical Exam Chef

4th ed 2025, 272 pp, numerous illustrations, coloured, 19 x 26.5 cm, paper-bound

Europa-No. 06049 | € 25.90

🇩🇪 German

This title gives you valuable input and tips for the intermediate and final examination. It shows to what extent you can put the knowledge you have acquired so far into practice under examination conditions. The book is rounded off by tips on how to implement the examination, tips on difficulties and how to cope with them, aids for the perfect presentation of the meals and examples for the oral examination.

Einfach Koch(en) lernen Fachpraktiker Küche

Learn to Cook Easily Kitchen Experts

2nd ed 2023, 770 pp, numerous illustrations, coloured, 18 x 25 cm, hardcover

Europa-No. 07152 | € 40.30

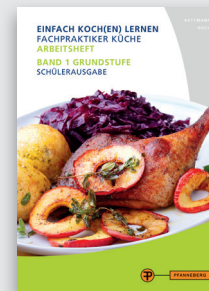

🇩🇪 German

🔄 Vietnamese

This new publication is in line with the curricula of the practical federal states for training as a cuisine specialist. The structure is also based on our standard work "The Young Chef" ("Der junge Koch"). The special challenges for this main target group required a special book: simple language, simple layout and customised presentation content.

Award of the Gastronomic Academy of Germany (GAD)

Arbeitshefte Fachpraktiker Küche – Band 1 und Band 2

Workbook for Kitchen Experts – Basic Level and Professional Level

The workbooks accompany and supplement the basic work "Learn to Cook Easily". They are structured in two levels and intended for the training of kitchen experts. Volume 1 Basic Level contains selected worksheets on the topics taught in the 1st year of teaching. Volume 2 contains worksheets on the topics of the 2nd and 3rd year of apprenticeship: seasoning and arranging food, working with vegetable raw materials and with animal raw materials, meal sequences, regional and international cuisine.

Volume 1 Basic Level

2nd 2023, 99 pp, numerous illustrations, coloured, DIN A4, paper-bound, pages punched and perforated

Europa-No. 08074 | € 14.70

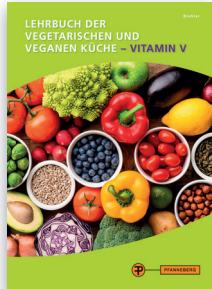

🇩🇪 German

Volume 2 Professional Level

2nd ed 2024, 192 pp, numerous illustrations, coloured, DIN A4, paper-bound, pages punched and perforated

Europa-No. 08111 | € 23.70

🇩🇪 German

Lehrbuch der vegetarischen und veganen Küche – Vitamin V

Textbook of Vegetarian and Vegan Cuisine – Vitamin V

2nd ed 2022, 797 pp, coloured, 19 x 26 cm, hardcover

Europa-No. 08272 | € 56.70

🇩🇪 German

The multi-award-winning "Vitamin V" is not a recipe book, but an innovative textbook for vegetarian and vegan cooking. All ingredients and the tools of the trade, such as preparation techniques and cooking methods, are systematically explained.

Hotel & Restaurant Fachwissen Hotel, Restaurant, Küche

Hotel & Restaurant

1st ed 2022, 642 pp, numerous illustrations, coloured, 19 x 26 cm, hardcover, digital supplements

Europa-No. 08296 | € 34.90

🇩🇪 German

The curricula of the newly organised hospitality professions contain identical contents for the first year of training. The first volume of the new series is aimed at all trainees in the five occupations in the hotel and restaurant sectors.

Hotel & Gast Hotelfachmann/-frau Kaufmann/-frau Hotelmanagement 2. Ausbildungsjahr

Hotel & Guest

1st ed 2024, 248 pp, numerous illustrations, coloured, 19 x 26 cm, hardcover, digital supplements

Europa-No. 08418 | € 16.90

🇩🇪 German

The second volume of the new series is aimed at all trainees in the hotel sector (hotel clerks and hotel management clerks). It contains all topics of the learning fields of the 2nd year of training.

Restaurant & Gast Fachkraft Gastronomie Fachmann/-frau für Restaurants und Veranstaltungsorganisation Fachmann/-frau für Systemgastronomie

Restaurant & Guest

1st ed 2024, 318 pp, numerous illustrations, coloured, 19 x 26 cm, hardcover, digital supplements

Europa-No. 08425 | € 16.90

🇩🇪 German

The second volume of the new series is aimed at all trainees in the field of restaurants (specialist caterers, specialists for restaurants and event catering as well as for system catering). It contains all topics of the learning fields of the 2nd year of training.

Three volumes for the third year of apprenticeship in the hospitality industry:

Hotel & Gast Hotelfachmann/-frau

Hotel & Guest Hotel Specialist

1st ed 2025, 317 pp, coloured, numerous illustrations, 19 x 26 cm, hardcover, digital supplements

Europa-No. 08494 | € 17.90

🇩🇪 German

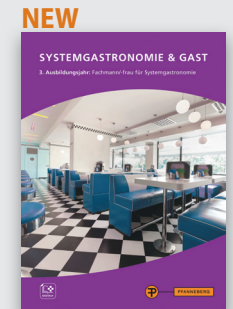

Restaurant & Gast Fachmann/-frau für Restaurants und Veranstaltungsorganisation

Restaurant & Guest Restaurant and Event Catering Specialist

1st ed 2025, 274 pp, coloured, numerous illustrations, 19 x 26 cm, hardcover, digital supplements

Europa-No. 08517 | € 17.90

🇩🇪 German

Systemgastronomie & Gast Fachmann/-frau für Systemgastronomie

System Catering & Guest System Catering Specialist

1st ed 2025, 232 pp, coloured, numerous illustrations, 19 x 26 cm, hardcover, digital supplements

Europa-No. 08524 | € 17.90

🇩🇪 German

Prüfungsbuch Restaurantfachmann/-frau

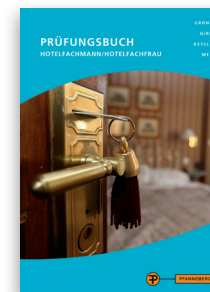

Examination Book Restaurant Professional

11th ed 2017, 438 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound

Europa-No. 03732 | € 30.30

🇩🇪 German

The examination book for professional restaurateurs: service and restaurant organisation in varied forms of questions, supplemented by complex practical tasks. Information about study techniques and motivational, explanatory inserts provide support on the path to examination success. Complete sets of examinations for the restaurant organisation and service examination subjects are included in the appendix.

Prüfungsbuch Hotelfachmann/-frau

Examination Book Hotel Professional

15th ed 2020, 403 pp, numerous illustrations, coloured, 15.2 x 21.5 cm, paper-bound

Europa-No. 04143 | € 30.30

🇩🇪 German 🇻🇳 Vietnamese

The examination book for hoteliers: guest reception and advice, marketing and organisation of work in varied forms of questions, supplemented by complex practical tasks. It is also suitable for professionals in the catering industry. In addition to the exercises, information about study techniques and motivational, explanatory inserts provide support on the path to examination success.

Europa-No. 05271 | € 42.30
 🇩🇪 German

As an in-depth reference book for training in the hospitality and food trades, but also for companies, the title teaches the theory and practice of food hygiene.

**Herings
Lexikon der Küche****Hering's Cooking
Encyclopaedia**

25th ed 2012, 1,020 pp, 13 x 21.5 cm, hardcover, with CD
Europa-No. 04283 | € 47.90
 🇩🇪 German

For a hundred years, the world's most comprehensive cooking encyclopaedia has been proving its worth for apprenticeships, practice, vocational and professional training. It is an indispensable guidebook for apprentices, chefs and master chefs. The book comprises more than 32000 descriptions of recipes and definitions of specialist terms for the classical, modern and Asian cuisine.

Die Kalte Küche

Cold Dishes

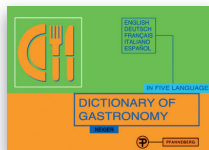

10th ed 2005, 408 pp,
more than 2000 photos,
coloured, 22 x 28 cm,
hardcover, with CD
Europa-No. 04879 | € 56.70
🇩🇪 German
🇱🇹 Lithuanian, Polish

This is a modern, basic reference book for cold dishes with a striking layout and numerous pictures. The recipes are presented in a didactic way. The book is mainly directed to specialists in the gastronomy field, but also the amateur cook will take pleasure in preparing the dishes.

The accompanying CD contains all recipes.

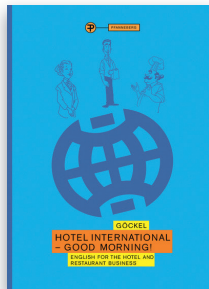

**Award of the Gastronomic
Academy of Germany (GAD)**

Dictionary of Gastronomy

2nd ed 2006, 208 pp,
18 x 12.5 cm, paper-bound
Europa-No. 05433 | € 25.90
🇬🇧 English, French, German,
Italian, Spanish

The booklet is of inestimable help for anybody in the catering business who has to make out menus. A handy and reliable aid for creating and translating multilingual menus in five languages: German, French, English, Italian and Spanish. Furthermore, it offers a choice of tasty dishes. With tourism becoming increasingly international, this booklet can also help foreign guests. Finally, it might also be of use to teachers in catering schools.

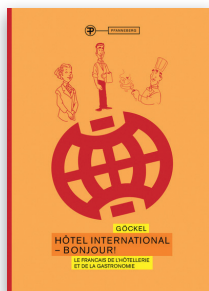

Hotel International

Good morning!

3rd ed 2012, 128 pp,
numerous illustrations,
DIN A4, paper-bound
Europa-No. 04534 | € 20.70
🇬🇧 English
🇬🇷 Greek

These combined textbooks and workbooks do not assume any knowledge of languages on the part of the students. Right from the start, they introduce them to the subject-related vocabulary and linguistic structures that will enable them to make themselves understood when talking to international visitors and colleagues. The topic-based lessons include activities involving communication (dialogues, interviews, role-plays), as well as a wide and varied range of reading exercises and writing tasks. To make it easier to learn and go over the vocabulary and the specialised expressions, separate word lists are included.

Hôtel International
